The nomination committee recommends the elected board members to build their own holdings of shares in the company

The nomination committee recommends the Board of Directors of Swedish Orphan Biovitrum AB to establish a shareholding policy pursuant to which the members of the Board of Directors, who do not already have such holding, are expected to, over a five year period, acquire an ownership in Swedish Orphan Biovitrum AB shares with a market value which is expected to correspond to at least one year board remuneration, before taxes, excluding remuneration for committee work.

Proposal regarding appropriation of the company's profit or loss in accordance with the adopted balance sheet (item 11)

The Board of Directors proposes that the company's retained profits are carried forward.

Proposal regarding guidelines for remuneration for the Management (item 16)

The Board of Directors proposes that the annual general meeting resolves on principles for remuneration to Management as set forth below which shall apply until the annual general meeting 2017. The Management is defined as the managing director of Swedish Orphan Biovitrum AB and the executives who report to him and are members of the senior management, as well as members of the Board of Directors if employment or consulting agreements are entered into.

Objective

The objective is to ensure that the company can attract and retain the best people in order to support the vision and strategy of the company. Remuneration to the Management should be built on a total remuneration approach. The position of total remuneration should be market competitive without being leading relative to competitors in each local market. The market comparisons should be made against a set of peer group companies with comparable sizes, industries and complexity. The remuneration principles should enable international hiring and should support diversity within the Management. The remuneration may consist of the following components:

- A, Fixed Base Pay
- B, Variable Pay – so-called Short Term Incentives
- C, Long Term Incentives
- D, Pensions
- E, Other Benefits

To the extent a member of the Board of Directors carries out work for the company or for another group company, in addition to the board work, consulting fees and/or other remuneration for such work may be payable.

Fixed Base Pay

The fixed base pay of the Management should be based on competence, responsibility and performance. The company uses an international evaluation system in order to evaluate the scope and responsibility of the position.

Variable Pay

The annual Short Term Incentive plan is based on the achievement of annual performance objectives (corporate, departmental¹ and individual). No payment will be made unless these objectives are achieved. The annual performance objectives are defined in advance by the Compensation & Benefits Committee and approved by the Board of Directors.

These objectives are determined for the promotion of the company's long-term development, value creation and financial growth and shall be designed in a way that does not encourage an excessive risk-taking. The Short Term Incentives may not amount to more than 75% of the annual gross salary for the managing director and not more than 50% of the fixed annual salary for the other members of the management (pension may occasionally be included as a basis for calculating Short Term Incentives).

¹ Departmental objectives are not applicable for the managing director.

Long Term Incentives

Swedish Orphan Biovitrum AB can introduce long-term incentive programmes for all or some of its employees. The objectives of such a programme should be to align the employees' interests with those of the shareholders, to create a long-term commitment to Swedish Orphan Biovitrum AB, to be a tool to retain and attract executives and top talents, to offer participants to take part in Swedish Orphan Biovitrum AB's long-term success and value creation, and to contribute to a competitive total remuneration.

More information on Swedish Orphan Biovitrum AB's current incentive programmes can be found in Swedish Orphan Biovitrum AB's annual report 2015 note 12, to be published 27 April 2016.

Pensions

The Swedish Orphan Biovitrum AB preferred pension plan design is defined contribution². If the operating environment requires the establishment of a defined benefit pension plan by law or other regulations, such a plan may be established. The defined benefit level should in such cases be limited to the mandatory level.

Other Benefits

Fixed salary during notice periods and severance pay, including payments for any restrictions on competition, shall in total not exceed an amount equivalent to the fixed base pay for two years. In addition to this restriction, the total severance payment shall be limited to the existing monthly salary for the remaining months up to the age of 65.

Additional compensation may also be paid out in extraordinary circumstances, provided that such arrangement is made for management recruitment or retention purposes and is agreed on an individual basis. Such extraordinary arrangements shall be in line with market practice and may for example include a one-time cash payment, a support package including relocation and tax filing support, retention bonus or severance payment in case of a change of control, or similar.

Deviation from the guidelines

The Board of Directors may resolve to deviate from the guidelines if the Board of Directors, in an individual case, is of the opinion that there are special circumstances justifying that.

² A defined contribution pension plan defines the level of contribution that will be paid into the pension plan for each employee.

Proposal regarding the implementation of a long-term incentive programme in accordance with (A) and hedging arrangements in respect thereof in accordance with (B) or (C) (item 17)

Background

The Board of Directors of Swedish Orphan Biovitrum AB (publ) (“**Sobi**”) proposes that the annual general meeting 2016 resolves on the implementation of a long-term incentive programme (the “**Programme**”). The proposed Programme gives all present and future permanent employees of the Sobi Group the opportunity of becoming shareholders in Sobi. It is proposed that the Programme should be divided into two parts: (I) one part directed to executives and directors (the “**Executive Programme**”) and (II) one part directed to all other employees (the “**All Employee Programme**”). Save for the CEO, employees based in the US will not be offered to participate in the Programme.

The overall purpose of the Programme is to closely align the employees’ interests with those of the shareholders and to create a long-term commitment to Sobi. The Executive Programme provides Sobi with a crucial component of a competitive total remuneration package with which to attract and retain executives who are critical to Sobi’s long-term success. The purpose of the All Employee Programme is to create commitment and motivation for the entire permanent workforce of the Sobi Group. For these reasons the Board of Directors considers that having recurring long-term incentive programmes is a vital and important part of Sobi’s total remuneration package.

The Board of Directors of Sobi has evaluated the long-term incentive programme approved by the 2015 annual general meeting and has concluded that the Executive Programme and the All Employee Programme satisfy the intended purposes. A separate programme for the CEO, with the same structure as the programme proposed for the 2015 annual general meeting is not proposed this year.

Similarly to the incentive programme approved by the 2015 annual meeting, the Programme shall be inspiring, achievable, easy to understand, cost effective to administrate, easy to communicate and in line with market practice. Following implementation of the Programme, the Board of Directors intends to carry out an evaluation thereof in order to systematically analyse the achieved results in relation to the aims outlined above. The aim of the evaluation will be to determine whether the Programme satisfies its purposes, and this will also include the review of the outcome and the costs for the Programme.

A. *Implementation of the Programme*

The Board of Directors proposes that the annual general meeting 2016 resolves on the implementation of the Programme in accordance with the principal terms and conditions set out below.

I. Terms and conditions applying to the Executive Programme

- a) The Executive Programme is proposed to be open to no more than 224 permanent employees of the Sobi Group, whereof no more than 190 permanent employees on director level of the Sobi Group (“**Band D**”), no more than 20 permanent employees on vice president level of the Sobi Group (“**Band C**”), no more than 13 permanent employees who are members of the executive leadership team of the Sobi Group (“**ELT**”) and the CEO of Sobi (“**CEO**”).
- b) The Executive Programme will require participants in Band D, Band C, ELT members and the CEO to make investments of their own in common shares in Sobi on Nasdaq Stockholm (“**Executive Investment Shares**”). For each Executive Investment Share, participants in Band D, Band C, ELT members and the CEO will have the possibility to be allotted 1 common share in Sobi free of charge (“**Executive Matching Share**”), from Sobi or from a designated third party. The Executive Matching Shares will be allotted after the expiration of a 3 year lock-up period, starting on the date the participants in Band D, Band C, the ELT members and the CEO were notified by Sobi of their admission to the Executive Programme (the “**Lock-up Period**”). Sobi must notify the participants in Band D, Band C, the ELT members and the CEO of their admission to the Executive Programme no later than on 31 December 2016.
- c) Moreover, participants in Band D, Band C, ELT members and the CEO will, depending on the share price development of the Sobi common share, after the expiration of the Lock-up Period have the possibility to be allotted additional common shares in Sobi free of charge (“**Executive Performance Shares**”), from Sobi or from a designated third party. Participants in Band D may be allotted no more than 5 Executive Performance Shares, participants in Band C no more than 13 Executive Performance Shares, ELT members no more than 14 Executive Performance Shares and the CEO no more than 18 Executive Performance Shares for each Executive Investment Share. In order for any allotment of Executive Performance Shares to take place the share price of the Sobi common share, adjusted for any dividend payments,³ must increase with more than 15%. For maximum allotment of Executive Performance Shares to take place, the share price of the Sobi common share, adjusted for any dividend payments,⁴ must increase with at least 75%. If the share price increase, adjusted for any dividend payments,⁵ is between 15% and 75% the programme participants will receive a linear allotment of Executive Performance Shares. The calculation of the share price development shall be based on a comparison of the volume-weighted average price

³ So-called Total Shareholder Return.

⁴ See footnote 3.

⁵ See footnote 3.

paid for the Sobi common share on Nasdaq Stockholm, adjusted for any dividend payments,⁶ during a period of 10 trading days immediately prior to the start of the Lock-up Period and the volume-weighted average price paid for the Sobi common share on Nasdaq Stockholm, adjusted for any dividend payments⁷, during the last 10 trading days of the Lock-up Period.

- d) The maximum number of Executive Investment Shares each programme participant may invest in depends on if he/she participates in the Executive Programme as participant in Band D, Band C, as ELT member or as CEO and the respective gross annual average salary in 2016 for each such category. Executive Investment Shares may be acquired by participants in Band D and Band C for an amount corresponding to no more than 5% of the gross annual average fixed salary for the participants in Band D and Band C, respectively, in 2016, by ELT members for an amount corresponding to no more than 6% of the gross annual average fixed salary for the ELT members for 2016 and by the CEO for an amount corresponding to no more than 15% of the gross annual salary (including pension) for the CEO in 2016.
- e) Programme participants must purchase Executive Investment Shares in connection with the start of the Lock-up Period.
- f) Executive Matching Shares and Executive Performance Shares may be allotted only after the expiration of the Lock-up Period, unless the Board of Directors of Sobi in an individual case resolves otherwise.
- g) In order for a programme participant to be allotted Executive Matching Shares and Executive Performance Shares it is a condition that, with certain specific exemptions, he/she has been permanently employed within the Sobi Group for the duration of the whole Lock-up Period and that the participant, until the expiration of this Lock-up Period, has retained the Executive Investment Shares purchased. Any disposal of Executive Investment Shares prior to the expiration of the Lock-up Period will result in a proportionally reduced number of Executive Matching Shares and Executive Performance Shares being allotted.
- h) If significant changes in the Sobi Group or in the market occur which, in the opinion of the Board of Directors, would result in a situation where the conditions for allotment of Executive Performance Shares under the Programme become unreasonable, the Board of Directors shall be entitled to

⁶ See footnote 3.

⁷ See footnote 3.

make adjustments to the Programme, including, among other things, be entitled to resolve on a reduced allotment of Executive Performance Shares, or that no Executive Performance Shares shall be allotted at all.

II. Terms and conditions applying to the All Employee Programme

- a) The All Employee Programme is proposed to be open to approximately 590 permanent employees of the Sobi Group ("**Employees**").
- b) The All Employee Programme will require Employees to make investments of their own in common shares in Sobi on Nasdaq Stockholm ("**Employee Investment Shares**"). For each Employee Investment Share, the Employees will have the possibility to be allotted 2 common shares in Sobi free of charge ("**Employee Matching Shares**"), from Sobi or from a designated third party. The Employee Matching Shares will be allotted after the expiration of a 3 year lock-up period, starting on the date the Employees were notified by Sobi of their admission to the All Employee Programme (the "**Lock-up Period**"). Sobi must notify the Employees of their admission to the All Employee Programme no later than on 31 December 2016.
- c) The maximum number of Employee Investment Shares each Employee may invest in depends on the gross annual average fixed salary for Employees in 2016. Employee Investment Shares may be acquired for an amount corresponding to no more than 2.5% of the gross annual average fixed salary for Employees in 2016.
- d) Programme participants must purchase Employee Investment Shares in connection with the start of the Lock-up Period.
- e) Employee Matching Shares may be allotted only after the expiration of the Lock-up Period, unless the Board of Directors of Sobi in an individual case resolves otherwise.
- f) In order for a programme participant to be allotted Employee Matching Shares it is a condition that, with certain specific exemptions, he/she has been permanently employed within the Sobi Group for the duration of the whole Lock-up Period and that the participant, until the expiration of this Lock-up Period, has retained the Employee Investment Shares purchased. Any disposal of Employee Investment Shares prior to the expiration of the Lock-up Period will result in a proportionally reduced number of Employee Matching Shares being allotted.

III. Terms and conditions applying to the Executive Programme and the All Employee Programme

- a) The Board of Directors shall be authorised to establish the detailed terms and conditions for the Programme. The Board of Directors may, in that regard, make necessary adjustments to satisfy certain regulations or market conditions outside Sweden.
- b) Participation in the Programme presupposes that such participation is legally possible in the various jurisdictions concerned and that the administrative costs and financial efforts are reasonable in the opinion of the Board of Directors.
- c) The Programme shall comprise no more than 1,678,005 common shares in Sobi, of which 128,198 constitute Executive Matching Shares, 996,006 constitute Executive Performance Shares and 152,622 constitute Employee Matching Shares. The remaining 401,179 common shares in Sobi are such shares that may be transferred by Sobi in order to cover the cash flow effects associated with the Programme, primarily social security charges.
- d) The number of Executive Matching Shares, Employee Matching Shares and Executive Performance Shares will be subject to recalculation as a result of intervening bonus issues, splits, rights issues and/or other similar corporate events.

Costs for the Programme etc.

The costs for the Programme, which are charged in the profit and loss account, are calculated according to the accounting standard IFRS 2 and distributed on a linear basis over the vesting period. The calculation has been made based on the following assumptions: (i) a market price of the Sobi common share of SEK 110, (ii) no dividend is paid by Sobi during the Programme and (iii) an assessment of future volatility in respect of the Sobi common share. In total, this can lead to maximum costs for the Programme of approximately MSEK 66.8, excluding social security costs. The costs for social security charges are calculated to approximately MSEK 23.6 assuming an annual share price increase of 10% during the Lock-up Period. In addition to what is set forth above, the maximum costs for the Programme have been based on a share price of SEK 110 at the time of the programme participant's own investment, that the Programme comprises 814 participants, that each programme participant makes a maximum investment and based on historical employee turnover for the group of 5%. If the share price increases from SEK 110 with 10% until the implementation of the Programme the effect on costs would only be marginal as the number of Executive and Employee Matching Shares and

Executive Performance Shares would be reduced correspondingly. Also in case of a decrease in the share price the effect on costs would be marginal. The expected annual costs, including social security charges, corresponds to approximately 3.2% of Sobi's total employee costs.

If the Programme had been implemented in 2015, if the company had had costs in accordance with the example in the preceding paragraph, and Executive and Employee Matching Shares and Executive Performance Shares had been allotted in 2015 in accordance with the assumptions in the sample calculation, which among other things assumes an annual share price increase of 10% during the Lock-up Period, the earnings per share for the financial year 2015 had decreased by SEK 0.10 to SEK 0.16 and the shareholders' equity per share for the financial year 2015 had decreased by SEK 0.13 to SEK 17.21.

Dilution

Upon full allotment of Executive and Employee Matching Shares and Executive Performance Shares, the number of shares under the Programme amounts to 1,276,826 common shares in Sobi, corresponding to a dilution effect of approximately 0.47% of the share capital and the votes. Aggregated with the 401,179 shares that may be transferred in order to cover the cash flow effects associated with the Programme, primarily social security charges, the maximum dilution effect of the Programme amounts to 0.62%. If all outstanding long-term incentive programmes are included in the calculation, then the corresponding maximum level of dilution amounts to 1.60%.

Hedging arrangements

The Board of Directors has considered different methods for transfer of shares under the Programme, in order to implement the Programme in a cost-effective and flexible manner. The Board of Directors has found the most cost-effective alternative to be, and thus proposes that the annual general meeting as a main alternative resolves on (i) a directed issue of redeemable and convertible series C shares and (ii) an authorisation for the Board of Directors to resolve on the repurchase of all issued redeemable and convertible series C shares. Following conversion to common shares in Sobi, the shares are intended to be transferred to programme participants as well as transferred on a regulated market in order to cover the cash flow effects associated with the Programme, primarily social security charges. For this purpose, the Board of Directors further proposes that the annual general meeting resolves (iii) on transfers of own common shares free of charge to programme participants. As further described in item B.(III) below, the Board of Directors proposes that shares acquired for the purpose of securing Sobi's obligations under previous share programmes also may be transferred under the Programme. The detailed conditions for the Board of Directors' main alternative are set out in item B. below.

Since the Programme, in principle, is not expected to give rise to any initial social security payments for the Sobi Group, the Board of Directors has decided not to propose to the annual general meeting 2016 to resolve

on transfers of own common shares on a regulated market in order to cover such payments. However, prior to the transfers of common shares to programme participants, the Board of Directors intends to propose to the annual general meeting 2019 that transfers be made of own common shares on a regulated market in order to cover such costs.

Should the majority required under item B. below not be reached, the Board of Directors proposes that Sobi shall be able to enter into an equity swap agreement with a third party, in accordance with item C. below.

Preparations of the proposal

The Compensation & Benefits Committee of Sobi has prepared guidelines for the proposed Programme. These guidelines have been presented for and adopted by the Board of Directors.

Hedging arrangements in respect of the Programme

B. Directed issue of redeemable and convertible series C shares, authorisation for the Board of Directors to resolve to repurchase all issued redeemable and convertible series C shares and transfers of own common shares to Programme participants

I. Resolution on a directed issue of redeemable and convertible series C shares

Increase of Sobi's share capital by no more than SEK 103,235 through an issue of no more than 188,142 series C shares in Sobi.

The issue shall be effected on the following terms.

- a) The new shares shall – with deviation from the shareholders' preferential right to subscribe for shares – be subscribed for only by an external party who has been informed in advance.
- b) The price to be paid for each new share shall correspond to the quotient value of the share at the time of the subscription of the shares.⁸

⁸ The quotient value of the share as per the day of this notice is approximately SEK 0.55.

- c) The new shares shall be subscribed for during the period 25 May–15 September 2016, with a right for the Board of Directors to extend the subscription period. Oversubscription is not permitted.
- d) Payment for shares subscribed for shall be effected at subscription of the shares.
- e) The new shares shall entitle to dividends from and including the financial year 2016.
- f) The new shares will be subject to restrictions as set forth in Chapter 4, Section 6 (conversion provision) and Chapter 20, Section 31 (redemption provision) in the Swedish Companies Act (SFS 2005:551).

II. Authorisation for the Board of Directors to decide on a repurchase of all issued redeemable and convertible series C shares

Authorisation for the Board of Directors to decide on a repurchase of all issued redeemable and convertible series C shares in Sobi on the following terms.

- a) Repurchase may be made through a public offer directed to all owners of series C shares in Sobi.
- b) The authorisation is valid and may be exercised on one or several occasions until the annual general meeting 2017.
- c) The number of series C shares permitted to be repurchased shall amount to no more than 188,142.
- d) Repurchase of shares shall be made at a lowest price per share of 100% and a highest price of 105% of the quotient value, applicable at the time of the subscription of shares according to section B.(i) above.
- e) Payment for shares repurchased shall be made in cash.
- f) The Board of Directors shall be authorized to establish additional terms for the repurchase.
- g) Repurchase shall also include a so-called interim share, designated by Euroclear Sweden AB as a "paid subscription share" (Sw. BTA) relating to a series C share.

The repurchase of own shares is an integrated part of the hedging arrangements for the Programme. The reason for the proposed possibility to repurchase own shares is that Sobi shall be able to fulfil its obligations pursuant to the Programme in a cost-effective manner.

III. *Resolution on transfers of own common shares to Programme participants*

Series C shares have been issued and repurchased by Sobi under previous share programmes for the purpose of securing Sobi's obligations under such programmes. Those shares either have been or will be converted to common shares. Full allotment of shares will not take place under these programmes and, accordingly, all shares will not be required to secure the obligations under such programmes. The Board of Directors proposes that 1,489,863 common shares, which are no longer required to secure the obligations of Sobi under previous share programmes, together with the shares issued and repurchased in accordance with items B.(I) and B.(II) above, following conversion to common shares, may be transferred under the Programme.

Transfers of Sobi's own common shares to Programme participants may be made on the following terms.

- a) Transfers may be made only of common shares in Sobi, whereby a maximum of 1,276,826 common shares in Sobi (corresponding to 128,198 Executive Matching Shares, 996,006 Executive Performance Shares, and 152,622 Employee Matching Shares) may be transferred free of charge to Programme participants.
- b) Right to purchase common shares in Sobi free of charge shall – with deviation from the shareholders' preferential rights – be granted to such persons within the Sobi Group who are participants in the Programme.
- c) Transfers of common shares in Sobi shall be made free of charge at the time and on the other terms that the Programme participants are entitled to be allotted shares.
- d) The number of common shares in Sobi that may be transferred under the Programme will be subject to recalculation as a result of intervening bonus issues, splits, rights issues and/or other similar corporate events.

C. *Equity swap agreement with a third party*

Should the majority required under item B. above not be reached, the Board of Directors proposes that the annual general meeting resolves that the expected financial exposure of the Programme shall be hedged by

Sobi being able to enter into an equity swap agreement with a third party on terms in accordance with market practice, whereby the third party in its own name shall be entitled to acquire and transfer common shares in Sobi to the programme participants.

Conditions

The annual general meeting's resolution on the implementation of the Programme according to item A. above is conditional upon the meeting either resolving in accordance with the Board of Directors' proposal under item B. above or in accordance with the Board of Directors' proposal under item C. above.

Majority requirements, etc.

The annual general meeting's resolution according to item A. above requires a simple majority among the votes cast. A valid resolution under item B. above requires that shareholders representing not less than nine-tenths of the votes cast as well as of the shares represented at the meeting approve the resolution. A valid resolution under item C. above requires a simple majority among the votes cast.

The issue, repurchase and transfer of shares in Sobi form part for the accomplishment of the proposed Programme. Therefore, and in light of the above, the Board of Directors considers it to be advantageous for Sobi and the shareholders that the Programme participants are offered to become shareholders in Sobi.

For the purpose of minimizing Sobi's costs for the Programme, the subscription price has been set at the quotient value of the share.

Previous incentive programmes in Sobi

For a description of the company's other long-term incentive programmes, reference is made to the company's annual report for 2015, note 12, and the company's web site, www.sobi.com. In addition to the programmes described there, no other long-term incentive programmes have been implemented in Sobi.

Authorisation for the CEO

The Board of Directors proposes that the CEO shall be authorized to make the minor adjustments to the above resolution regarding the directed issue of redeemable and convertible series C shares in connection with the registration thereof with the Swedish Companies Registration Office and Euroclear Sweden AB.

Proposal regarding the approval to authorise the issuance of new shares and/or convertible bonds and/or warrants (item 18)

The Board of Directors proposes that the annual general meeting resolve to authorise the Board of Directors to resolve, on one or several occasions, prior to the next annual general meeting, on a pre-emptive or non-pre-emptive basis, on the issuance of shares and/or convertible bonds and/or warrants. Such resolution may provide for payment in kind, payment against set-off of claims and/or on other conditions. The number of shares that may be issued, the number of shares that convertible bonds may be converted into and the number of shares that may be subscribed for by the exercise of warrants may not exceed 30 000 000 shares in total.

If the authorisation is exercised in full, the dilution would amount to approx. 10 per cent of the number of shares in the company (counted after the authorisation has been fully exercised).

The Board of Directors, or any person appointed by it, is authorized to make any minor adjustments to the resolution that may be necessary to enable registration with the Swedish Companies Registration Office (Sw: Bolagsverket).

Majority requirements, etc.

The purpose of the authorisation is to enable payment through the issuance of own financial instruments in connection with possible acquisitions that the company may make as well as to raise capital in connection with and in order to finance such acquisitions. A valid resolution in accordance with the Board of Directors' proposal requires that shareholders representing at least two-thirds of both the number of votes cast and the shares represented at the annual general meeting support the resolution.

Proposal regarding transfer of own shares (item 19)

The Board of Directors proposes that the annual general meeting resolves that not more than 303,346 common shares may, prior to the annual general meeting 2017, be transferred for the purpose of covering certain payments, primarily social security charges that may occur in relation to the Share Programme 2013. Transfer of shares shall be effected on Nasdaq Stockholm at a price within the, at each time, prevailing price interval for the share. The number of shares that may be transferred shall be subject to recalculation in the event of an intervening bonus issue, split, rights issue and/or other similar events.

Majority requirements, etc.

The purpose of the Board of Directors' proposal to transfer shares is to secure for future cash flow effects due to payments of social security costs connected with the Share Programme 2013. A valid resolution requires

approval of shareholders representing at least two-thirds of the votes cast as well as the shares represented at the general meeting.
