LINKÖPING, MAY 19, 2016

# Energy and telecom service provider in the Nordics selects IFS Applications

*IFS Applications to empower more than 230 employees with robust support for processes such as service management, project management, and supply chain*

**IFS**, the global enterprise applications company, announces that a provider of construction and maintenance services in the Nordic energy and telecommunications sector has chosen to implement **IFS Applications™**. The agreement includes licenses and services valued at approximately 1.6 million euros.

The IFS solution includes support for mission-critical business processes such as service management, project management, supply chain management, financials, human resources, document management, and business analytics.

“We are pleased to announce another great customer win in the energy and utilities sector,” IFS Industry Director Energy and Utilities Colin Beaney said. “IFS has a long and distinguished history in the energy and utilities industry and we are proud to continue to offer our best-practice solutions and expertise to leading companies in this sector.”
