

IT – Genium INET - Nasdaq Commodities - Cease of service for Webtrade June 10th, 2016 (28/16)

As communicated in IT- Information, no 05/16, Nasdaq Commodities announced End-of-Life for the Webtrade trading application. Customers using Webtrade have the option to migrate to the web-based Trading Technologies (TT) platform or to the Nasdaq Trading Workstation. The TT platform gives users access to all Nasdaq Commodities markets in the same way as the Webtrade solution, plus the addition of mobile screen capabilities.

The last day for Webtrade to be available as a service is June 10th, 2016, and from this date the product becomes obsolete.

Please see earlier Exchange Notice for further information:
