About Endeavour Mining Corporation

Endeavour Mining is a TSX-listed intermediate gold producer, focused on developing a portfolio of high quality mines in the prolific West-African region, where it has established a solid operational and construction track record.

Endeavour is ideally positioned as the major pure West-African multi-operation gold mining company, operating 5 mines in Côte d'Ivoire (Agbaou, Ity), Burkina Faso (Karma), Mali (Tabakoto), and Ghana (Nzema). In 2016, it expects to produce between 535koz and 560koz at an AISC of US\$870 to US\$920/oz, excluding Karma which is expected to enter commercial production in June. Endeavour is currently building its Houndé project in Burkina Faso, which is expected to commence production in Q4-2017 and become its flagship low-cost mine with an average annual production of 190koz at an AISC of US\$709/oz over a 10-year mine life based on reserves. The development of the Houndé project is expected to lift Endeavour's group production +900kozpa and decrease its average AISC to circa \$800/oz by 2018, while exploration aims to extend all mine lives to +10 years.
