INVISIO receives new order from the French Army worth SEK 9 million

INVISIO (IVSO) has received a new order for communications systems and accessories from the French Army. The order value amounts to approximately SEK 9 million and delivery is scheduled for the second half of 2016. This is the second order from the same customer in a short time.

"We have a long-term cooperation with the French defense forces and look upon this order as an important continuation of our collaboration which has been ongoing for some years now", says Lars Højgård Hansen, CEO of INVISIO.

The order includes communications system with headsets for use with a radio. The system ensures a good hearing protection while the wearer is able to communicate and maintain situational awareness.

In May 2016, INVISIO announced an order of SEK 9 million from the same customer.

France is INVISIO's seventh army cooperation, after Denmark, Sweden, the USA, Canada, Australia and the United Kingdom.

About INVISIO Communications AB (publ)

INVISIO offers cutting-edge personal communication and hearing protection systems. The systems enable users to operate and communicate safely and clearly in all environments, even under extreme conditions, such as loud noise, heat, and underwater. INVISIO systems consist of headsets and advanced control units that interface to a wide range of communication devices. The systems provide hearing protection while maintaining the natural level of situational awareness. Customers are mainly from the public sector. Sales are made via a global network of partners and to some extent directly to end customers. INVISIO is listed on Nasdaq Stockholm (IVSO). Additional information is available on the company's website, www.invisio.com.
