New York, July 15, 2016 — Citigroup Inc. today reported net income for the second quarter 2016 of \$4.0 billion, or \$1.24 per diluted share, on revenues of \$17.5 billion. This compared to net income of \$4.8 billion, or \$1.51 per diluted share, on revenues of \$19.5 billion for the second quarter 2015.

Second quarter 2015 included CVA/DVA(4) of \$312 million (\$196 million after-tax). Excluding CVA/DVA in the prior year period, revenues decreased 8% from the prior year period, and earnings per diluted share decreased 14% from \$1.45 per diluted share in the prior year period.

Michael Corbat, Chief Executive Officer of Citi, said, "These results demonstrate our ability to generate solid earnings in a challenging and volatile environment, again highlighting the resilience of our institution. Nearly all of our net income came from our core businesses and we continued to reduce non-core assets in Citi Holdings. We significantly improved our efficiency ratio, return on assets and return on tangible common equity from the first quarter. We also grew loans in both our consumer and institutional businesses, reduced expenses, and utilized additional deferred tax assets, bringing the total utilized to \$10 billion over the last four years. This utilization fuels our ability to generate regulatory capital and, with the Fed's non-objection to our capital plan, I am pleased that we will significantly increase the amount of capital returned to our shareholders over the next year."

In the discussion throughout the remainder of this press release, Citigroup's results of operations in the prior year period are presented excluding CVA/DVA, as applicable, for consistency with the current period's presentation (see note 4 to this release). Percentage comparisons below are calculated for the second quarter 2016 versus the second quarter 2015, unless otherwise specified.

Citigroup

Citigroup revenues of \$17.5 billion in the second quarter 2016 decreased 8%. Excluding the impact of foreign exchange translation(5), Citigroup revenues decreased 6%, driven by a 56% decrease in Citi Holdings, while Citicorp revenues were unchanged versus the prior year period.

Citigroup's net income decreased 14% to \$4.0 billion in the second quarter 2016, driven by the lower revenues and a higher effective tax rate, partially offset by lower cost of credit and lower operating expenses. Citigroup's effective tax rate was 30% in the current quarter, an increase from 29% in the second quarter 2015.

Citigroup's operating expenses decreased 5% to \$10.4 billion in the second quarter 2016, as lower expenses in Citi Holdings and a benefit from foreign exchange translation were partially offset by ongoing investments in Citicorp. Citigroup's cost of credit in the second quarter 2016 was \$1.4 billion, a 15% decrease, driven by a 16% decrease in net credit losses, partially offset by a smaller net loan loss reserve release.

Citigroup's allowance for loan losses was \$12.3 billion at quarter end, or 1.96% of total loans, compared to \$14.1 billion, or 2.25% of total loans, at the end of the prior year period. Total non-accrual assets of \$6.3 billion fell 6% from the prior year period. Consumer non-accrual loans declined 30% to \$3.7 billion. Corporate non-accrual loans of \$2.5 billion increased \$1.2 billion from the prior year period and 6% from the prior quarter, mostly related to energy-related loans in the *Institutional Clients Group (ICG)*.

Citigroup's loans were \$634 billion as of quarter end, approximately unchanged from the prior year period, and up 2% in constant dollars. In constant dollars, 6% growth in Citicorp loans was largely offset by continued declines in Citi Holdings, driven primarily by continued reductions in the *North America* mortgage portfolio.

Citigroup's deposits were \$938 billion as of quarter end, up 3%, and up 5% in constant dollars. In constant dollars, Citicorp deposits increased 6%, driven by a 5% increase in *ICG* deposits and a 2% increase in *Global Consumer Banking* (*GCB*) deposits. In constant dollars, Citi Holdings deposits declined 35%, driven by divestiture activity.

Citigroup's book value per share was \$73.19 and tangible book value per share was \$63.53, each as of quarter end, both representing 7% increases. At quarter end, Citigroup's Common Equity Tier 1 Capital ratio was 12.5%, up from 11.4% in the prior year period. Citigroup's Supplementary Leverage Ratio for the second quarter 2016 was 7.5%, up from 6.7% in the prior year period. During the second quarter 2016, Citigroup returned a total of approximately \$1.5 billion of capital to common shareholders in the form of dividends and repurchases of approximately 30 million common shares.

Global Consumer Banking

GCB revenues of \$7.7 billion decreased 6%. In constant dollars, revenues decreased 2%, driven by a 3% decrease in *North America GCB*, while international *GCB* revenues were unchanged versus the prior year period.

GCB net income decreased 18% to \$1.3 billion, driven by the lower revenues, partially offset by lower operating expenses. Operating expenses decreased 1% to \$4.3 billion, as efficiency savings were partially offset by slightly higher repositioning expenses and an increase in ongoing investment spending.

North America *GCB* revenues of \$4.8 billion decreased 3%, with lower revenues in Citi-branded cards, Citi retail services and retail banking. Citi-branded cards revenues of \$1.9 billion decreased 1%, as a modest benefit from the previously-disclosed acquisition of the Costco portfolio (acquired on June 17, 2016) was offset by the continued impact of higher rewards costs in the existing portfolio and higher payment rates. Citi retail services revenues of \$1.5 billion decreased 4%, primarily driven by the impact of renewing and extending several partnership programs, principally that with The Home Depot, as well as the absence of revenues associated with two portfolios sold in the prior quarter. Retail banking revenues declined 4% to \$1.3 billion, as lower mortgage activity was only partially offset by continued growth in consumer and commercial banking.

North America *GCB* **net income** was \$843 million, down 22%, driven by the decrease in revenues, higher operating expenses and a higher cost of credit. Operating expenses increased 5% to \$2.4 billion, primarily driven by the Costco portfolio acquisition as well as continued marketing investments, partially offset by ongoing efficiency savings.

⁽a) For reporting purposes, Asia GCB includes the results of operations in EMEA GCB for all periods presented.

⁽b) Includes provision for unfunded lending commitments.

North America *GCB* cost of credit increased 13% to \$1.0 billion. The net loan loss reserve build in the second quarter 2016 was \$57 million, compared to a net loan loss reserve release of \$108 million in the prior year period, mostly reflecting a reserve build in Citi-branded cards driven by volume growth and the impact of the Costco portfolio acquisition. Net credit losses of \$953 million decreased 5%, driven by a 7% decrease in Citi-branded cards to \$467 million and a 3% decrease in Citi retail services to \$442 million.

International *GCB* revenues decreased 9% to \$3.0 billion and were unchanged in constant dollars. On this basis, revenues in *Latin America GCB* of \$1.2 billion increased 4%, reflecting increases in retail banking loans and deposits as well as card purchase sales, partially offset by a continued decline in card balances, driven by ongoing higher payment rates. Revenues in *Asia GCB* of \$1.7 billion decreased 4%, driven by lower wealth management and retail lending revenues, while cards revenues were unchanged from the prior year period.

International *GCB* **net income** decreased 8% to \$479 million. In constant dollars, net income increased 7%, driven by lower credit costs. Operating expenses decreased 7% on a reported basis and decreased 1% in constant dollars as ongoing efficiency savings offset investment spending and slightly higher repositioning costs. Credit costs decreased 22% but decreased 13% on a constant dollar basis. On such basis, the net loan loss reserve release was \$25 million, compared to a net loan loss reserve build of \$6 million in the prior year period, net credit losses decreased 7% and the net credit loss rate was 1.54% of average loans, improved from 1.65% in the prior year period.

ICG revenues of \$8.8 billion increased 2%, driven by a 10% increase in Markets and Securities Services revenues, partially offset by a 5% decrease in Banking revenues.

Banking revenues of \$4.2 billion decreased 5%. Excluding the gain / (loss) on loan hedges within Corporate Lending, Banking revenues of \$4.4 billion decreased 2%. Treasury and Trade Solutions (TTS) revenues of \$2.0 billion increased 5%. In constant dollars, TTS revenues grew 9% reflecting continued growth in transaction volumes. Investment Banking revenues of \$1.2 billion decreased 6%, primarily reflecting lower industry-wide activity during the current quarter. Advisory revenues decreased 7% to \$238 million and equity underwriting fell 41% to \$174 million, while debt underwriting revenues increased 9% to \$805 million. Private Bank revenues decreased 1% to \$738 million, primarily driven by lower capital markets and managed investments revenues. Corporate Lending revenues of \$389 million declined 18% (excluding gain / (loss) on loan hedges), driven by an adjustment to the residual value of a lease financing as well as higher hedging costs.

⁽a) Excludes gain / (loss) on hedges related to accrual loans. For additional information, please refer to Footnote 6.

⁽b) Excludes CVA / DVA in 2Q'15 and gain / (loss) on hedges related to accrual loans in all periods.

⁽d) Includes provision for unfunded lending commitments.

Markets and Securities Services revenues of \$4.7 billion increased 10%. Fixed Income Markets revenues of \$3.5 billion increased 14%, driven by an increase in corporate client activity in rates and currencies as well as a better trading environment in the current quarter, partially offset by lower revenues in securitized products driven by decreased trading opportunities. Equity Markets revenues of \$788 million increased 21%. The second quarter 2015 included a previously-disclosed charge to revenues of \$175 million for valuation adjustments related to certain financing transactions. Excluding this adjustment, Equity Markets revenues decreased 4% driven by lower market activity as well as the comparison to strong trading performance in Asia in the prior year. Securities Services revenues of \$531 million decreased 7% and declined 3% in constant dollars, largely reflecting the absence of revenues from divested businesses.

ICG net income of \$2.7 billion increased 2%, driven by the higher revenues and lower operating expenses, partially offset by a higher cost of credit. *ICG* operating expenses decreased 2% to \$4.8 billion, driven by repositioning savings and a benefit from foreign exchange translation. *ICG* cost of credit was \$82 million, compared to negative \$87 million in the prior year period. *ICG* cost of credit included net credit losses of \$141 million (\$82 million in the prior year period) and a net loan loss reserve release of \$59 million (net loan loss reserve release of \$169 million in the prior year period). The allowance for loan losses attributable to energy-related loans in *ICG* decreased to 3.9% of funded exposures as of the second quarter 2016, compared to 4.2% as of the first quarter 2016, as net credit losses in the portfolio were offset by previously-established reserves.

ICG average loans grew 5% to \$303 billion while end of period deposits increased 3% to \$607 billion. In constant dollars, average loans increased 6%, while end of period deposits increased 5%.

Citi Holdings

Citi Holdings revenues of \$843 billion decreased 57% from the prior year period, mainly reflecting continued reductions in Citi Holdings assets and lower gains on asset sales. As of the end of the second quarter 2016, Citi Holdings assets were \$66 billion, 47% below the prior year period and 10% below the prior quarter, primarily reflecting continued asset sales, and represented approximately 4% of total Citigroup assets. As of the end of the second quarter 2016, Citigroup had signed agreements to reduce Citi Holdings assets by an additional \$7 billion.

Citi Holdings net income was \$93 million, compared to \$150 million in the prior year period, reflecting the lower revenues, partially offset by lower operating expenses and a lower cost of credit. Citi Holdings operating expenses declined 37% to \$858 million, primarily driven by the ongoing decline in assets, partially offset by higher legal expenses. Operating expenses in the second quarter 2016 included legal and related expenses of \$116 million, compared to \$79 million in the prior year period. Cost of credit of negative \$98 million compared to \$311 million in the prior year period. The net loan loss reserve release was \$229 million, compared to \$183 million in the prior year period, primarily reflecting the impact of asset sales. Net credit losses declined 69% to \$102 million, reflecting the impact of ongoing divestiture activity as well as continued improvement in the *North America* mortgage portfolio.

⁽a) Excludes CVA / DVA in 2Q'15. For additional information, please refer to Appendix A.

⁽b) Includes provision for unfunded lending commitments.

Citi Holdings allowance for credit losses was \$1.9 billion at the end of the second quarter 2016, or 4.5% of loans, compared to \$3.7 billion, or 5.8% of loans, in the prior year period. 90+ days delinquent consumer loans in Citi Holdings decreased 47% to \$0.9 billion, or 2.2% of loans.

(1) Preliminary.

- (1) Preliminary. Citigroup's Common Equity Tier 1 (CET1) Capital ratio, which reflects full implementation of the U.S. Basel III rules, is a non-GAAP financial measure. For the composition of Citigroup's CET1 Capital and ratio, see Appendix C.
- (2) Preliminary. Citigroup's Supplementary Leverage Ratio (SLR), which reflects full implementation of the U.S. Basel III rules, is a non-GAAP financial measure. For the composition of Citigroup's SLR, see Appendix D.
- (3) Preliminary. Citigroup's tangible book value per share is a non-GAAP financial measure. For a reconciliation of this measure to reported results, see Appendix E.
- (4) Credit Valuation Adjustments (CVA) on derivatives (counterparty and own-credit), net of hedges; Funding Valuation Adjustments (FVA) on derivatives; and Debt Valuation Adjustments (DVA) on Citigroup's fair value option liabilities (collectively referred to as CVA/DVA). Effective January 1, 2016, Citigroup early adopted on a prospective basis the amendment in ASU No. 2016-01, Financial Instruments Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, related to the presentation of DVA on fair value option liabilities. Accordingly, beginning in the first quarter 2016, the portion of the change in fair value of these liabilities related to changes in Citigroup's own credit spreads (DVA) are reflected as a component of Accumulated Other Comprehensive Income (AOCI); previously these amounts were recognized in Citigroup's revenues and net income. In this release, results for the second quarter 2015 exclude the impact of CVA/DVA, as applicable, for consistency with the current period's presentation. Citigroup's results of operations excluding the impact of CVA/DVA in such prior period are non-GAAP financial measures. For a reconciliation of these measures to reported results, see Appendix A.
- (5) Results of operations excluding the impact of foreign exchange translation (constant dollar basis) are non-GAAP financial measures. For a reconciliation of these measures to reported results, see Appendices A and B.
- (6) Hedges on accrual loans reflect the mark-to-market on credit derivatives used to hedge the corporate accrual loan portfolio. The fixed premium cost of these hedges is included in (netted against) the core lending revenues to reflect the cost of the credit protection. Results of operations excluding the impact of gain/(loss) on loan hedges are non-GAAP financial measures.

NM Not meaningful.

⁽²⁾ Credit valuation adjustments (CVA) on derivatives (counterparty and own-credit), net of hedges; Funding Valuation Adjustments (FVA) on derivatives; and Debt Valuation Adjustments (DVA) on Citigroup's fair value option liabilities (collectively referred to as CVA/DVA). During the first quarter of 2016, Citi adopted ASU No. 2016-01, Financial Instruments-Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Liabilities on a prospective basis. Accordingly, beginning in the first quarter of 2016, changes in DVA are reflected as a component of Accumulated Other Comprehensive Income. In the tables above and on pages 5, 16 and 17, results for all periods prior to the first quarter of 1Q16 exclude the impact of CVA/DVA, as applicable, for consistency with the current period's presentation. Citigroup's results of operations excluding the impact of CVA/DVA in such periods are non-GAAP financial measures.

⁽²⁾ Hedges on accrual loans reflect the mark-to-market on credit derivatives used to economically hedge the corporate loan accrual portfolio. The fixed premium costs of these hedges is netted against the core lending revenues to reflect the cost of credit protection. Citigroup's results of operations excluding the impact of gain/(loss) on loan hedges are non-GAAP financial measures.

⁽³⁾ Primarily relates to income tax credits related to affordable housing and alternative energy investments as well as tax exempt income from municipal bond investments.

⁽¹⁾ Corporate loans are placed on non-accrual status based upon a review by Citigroup's risk officers. Corporate non-accrual loans may still be current on interest payments. With limited exceptions, the following practices are applied for Consumer loans: Consumer loans, excluding credit cards and mortgages, are placed on non-accrual status at 90 days past due, and are charged off at 120 days past due; residential mortgage loans are placed on non-accrual status at 90 days past due and written down to net realizable value at 180 days past due. Consistent with industry conventions, Citigroup generally accrues interest on credit card loans until such loans are charged off, which typically occurs at 180 days contractual delinquency. As such, the non-accrual loan disclosures do not include credit card loans.

⁽²⁾ The first, second and third quarters of 2015 reflect the transfers of non accrual loans to HFS resulting from the agreements to sell OneMain, Japan Retail and Japan Cards.

⁽³⁾ Excludes SOP 03-3 purchased distressed loans.

⁽⁴⁾ The fourth quarter of 2015 decline includes the impact related to the transfer of approximately \$8 billion of mortgage loans to Loans, held-for-sale (HFS)

- (included within Other assets on the GAAP balance sheet).
- (5) For reporting purposes, Asia GCB includes the results of operations of EMEA GCB for all periods presented.
- (6) Represents the carrying value of all property acquired by foreclosure or other legal proceedings when Citigroup has taken possession of the collateral. Also includes former premises and property for use that is no longer contemplated.
- (7) There is no industry-wide definition of non-accrual assets. As such, analysis against the industry is not always comparable.
