

CONTINUED GROWTH

INTERIM REPORT
JANUARY-JUNE 2016

Market development

Growing turmoil around the world is impacting the defence market. As a consequence of constrained budgets, Saab is seeing an increase in short-term demand for defence capabilities with cost efficient products and solutions. This makes our efforts with efficiency and to reduce lead times more important than ever. Saab's focus is partly to take advantage of market opportunities and partly on the execution of a number of major projects.

Strong growth in order bookings

During the first half-year 2016, Saab was awarded a number of new contracts, including for airborne surveillance, ammunition for the Carl-Gustaf weapon system, and the development and production of the New Lightweight Torpedo system for Sweden. Order bookings amounted to MSEK 11,462, compared to MSEK 18,996 in the previous year. An order from the Swedish Defence Material Administration (FMV) for Type A26 submarines was booked during the first half-year 2015, as was the overhaul and upgrade of Gotland-class submarines, together valued at SEK 8.6 billion. The order backlog at the end of the period was MSEK 111,593.

Gripen E offers increased defence capabilities

The Gripen E was rolled out on May 18. Users of Gripen E can operate longer in the air, improved sensors and electronic warfare will provide better intelligence on the enemy, and it will carry more and better weapons. At the same time Gripen E is highly cost-efficient. Deliveries of the next-generation Gripen to Sweden and Brazil will begin in 2019.

Sales growth

Sales amounted to MSEK 13,854 in the first half-year, an increase of 22 per cent.

All business areas improved their sales during the period. The increase was mainly due to the Gripen programme in the business area Aeronautics, a 2015 order for a new version of an airborne surveillance system, GlobalEye, in the business areas Surveillance and Support and Services, and the development of the A26 submarine in the business unit Saab Kockums.

Operating income amounted to MSEK 611 (367) in the first half-year and the operating margin was 4.4 per cent (3.2). All business areas but Industrial Products and Services and the business unit Saab Kockums improved their operating margins. Business area Dynamics saw the biggest improvement in operating income thanks to increased deliveries and a change in the product mix.

Operating income was again affected by investments in the development of a new jet trainer together with Boeing (the T-X program), as well as by several major projects in early stages where they normally generate lower profit.

Strong cash flow

Operational cash flow amounted to MSEK 4,193 (-1,806) in the first half-year. Cash flow strengthened in several areas. The increase is mainly related to large payments within the framework of orders for Gripen and an order for GlobalEye.

Net debt amounted to MSEK 405 at the end of the period, compared to MSEK 3,217 at the end of 2015.

Håkan Buskhe, President and CEO

UNCHANGED OUTLOOK STATEMENT 2016:

- In 2016, we estimate sales to be in line with Saab's long-term financial goal: annual organic sales growth of 5 per cent.
- The operating margin 2016, excluding material non-recurring items, is expected to be in line with 2015.

Sales, MSEK

Orders

Second quarter 2016

During the second quarter Saab received an order in the Airborne Early Warning and Control (AEW&C) segment amounting to approximately SEK 1.1 billion. Deliveries will take place during the period 2016-2018.

An order was received from the Swedish Defence Material Administration (FMV) for the development and production of New Lightweight Torpedo system with a total value of approximately SEK 1.5 billion. The order comes under the terms of the Letter of Intent between Saab and FMV announced on 9 June 2014 to support the Swedish Armed Forces' underwater capabilities in the period 2015-2024.

January-June 2016

In January, a contract was signed for the production and delivery of ammunition for the Carl-Gustaf man-portable weapon system. The total order value was approximately SEK 1.4 billion. Deliveries will take place during the period 2016-2019.

In total, Saab received orders of SEK 11.5 billion during the first half-year, of which SEK 5.6 billion (5.8) was attributable to orders of less than MSEK 100, a decrease of 3 per cent compared to the same period 2015.

For a list of significant orders received during 2016, see note 3.

In 2016, index and price changes had a positive effect on order bookings of MSEK 116 compared to MSEK 81 during the same period 2015.

The order backlog at the end of the period amounted to MSEK 111,593 compared to MSEK 113,834 at the beginning of the year.

Sales

Second quarter 2016

Sales during the second quarter 2016 amounted to MSEK 7,064 (5,940).

January-June 2016

Sales during the first half-year amounted to MSEK 13,854 (11,329). Sales from markets outside of Sweden amounted to MSEK 7,909 (5,734), or 57 per cent (51), of total sales. 83 per cent (77) of sales was related to the defence market.

Income

Second quarter 2016

The gross margin of 22.2 per cent (22.9) in the second quarter was slightly lower compared with 2015, mainly due to a lower margin within Saab Kockums. Saab Kockums had a strong profitability in the second quarter 2015 due to large project deliveries outside Sweden.

Operating income amounted to MSEK 317 (157) with an operating margin of 4.5 per cent (2.6).

January-June 2016

The gross margin of 22.2 per cent (23.6) in the half-year 2016 was lower than in 2015, mainly due to a lower margin within Saab Kockums and because several major projects are in early stages where they normally generate lower profit. Total depreciation and amortisation was MSEK 464 (463). Depreciation of tangible fixed assets amounted to MSEK 234 (216).

Internally funded expenditures in research and development (R&D) amounted to MSEK 1,086 (675), of which MSEK 412 (98) was capitalised. The increased capitalisation of development costs is related to GlobalEye. Internally funded expenditures in R&D are mainly related to radar and sensor technology and the T-X program.

Amortisation of intangible fixed assets amounted to MSEK 230 (247), of which amortisation of capitalised development expenditures amounted to MSEK 155 (161). The share of income in associated companies and joint ventures amounted to MSEK -34 (23). The loss is mainly related to a lower result within the minority portfolio where Saab owns shares in companies in various stages of development within the business area Industrial Products and Services.

Operating income amounted to MSEK 611 (367) with an operating margin of 4.4 per cent (3.2). All business areas but Industrial Products and Services and the business unit Saab Kockums improved their operating margins. Business area Dynamics made the biggest improvement in operating income due to increased deliveries and a change in the product mix.

During the first half-year 2015 the reversal of risk provisions for the remaining risks, related to the termination of Saab's leasing fleet of turbo prop aircraft (SAL), contributed positively to the operating income.

Financial net

MSEK	Jan-Jun 2016	Jan-Jun 2015
Financial net related to pensions	-32	-33
Net interest items	-	-27
Currency gains/losses	-1	24
Other financial items	-45	3
Total	-78	-33

Financial net related to pensions is the financial cost for net pension obligations recognised in the balance sheet. See note 11 for more information regarding defined-benefit pension plans.

Net interest items refer to return on liquid assets and short-term investments and to interest expenses on short-term and long-term interest-bearing liabilities.

Currency gains/losses reported in financial net are mainly related to hedges of the tender portfolio, which are valued at fair value through profit and loss.

Other net financial items consist of costs attributable to the programme for the sale of trade receivables, unrealised results from the market valuation of short-term investments, and other currency effects, e.g. changes in liquid assets in currencies other than SEK. Derivatives are used to reduce interest rate risk in the investment portfolio, which consists of long-term interest-bearing securities. Their market valuation has generated an unrealised loss.

Tax

Current and deferred taxes amounted to MSEK -119 (-77), equivalent to an effective tax rate of 22 per cent (23).

Return on capital employed and equity

The pre-tax return on capital employed was 11.3 Per cent (8.7) and the after-tax return on equity was 13.0 per cent (8.6), both measured over a rolling 12 month period.

Financial position and liquidity

At the end of June 2016, the net debt amounted to MSEK 405, a reduction of MSEK 2,812 compared to MSEK 3,217 at year-end 2015.

Cash flow from operating activities was positive and amounted to MSEK 4,791.

Net provisions for pensions, excluding special employers' contribution, amounted to MSEK 2,664 as of 30 June 2016, compared to MSEK 1,893 at year-end 2015. This had a negative impact on net debt of MSEK 771. The increase in provisions was mainly due to the reduction in the discount rate used in the valuation of pension obligations to 2.50 per cent from 3.25 per cent during the period. However, the inflation assumption for calculating the pension obligation changed to 1.50 per cent from 1.75 per cent, offsetting part of the negative effect. For more information about Saab's defined-benefit plans, see note 11.

During the period, net investments amounted to MSEK 817. Sale of subsidiaries reduced the net debt with MSEK 77. In addition, a payment of dividend to the Parent Company's shareholders of MSEK 530 was made.

Currency exchange rate differences in liquid assets and unrealised results from financial investments had an impact on net debt of MSEK 62.

As of 30 June 2016, short-term investments and liquid assets amounted to MSEK 7,578, compared to MSEK 3,845 at year-end 2015. The increase is mainly attributable to advances from customers.

Capitalised development costs on the balance sheet amounted to MSEK 1,415 as of 30 June 2016 compared to MSEK 1,157 as of 31 December 2015. The increase is related to GlobalEye.

Inventories increased by MSEK 519 in 2016, mainly due to preparations for future deliveries. Inventories are recognised after deducting utilised advances.

Tangible fixed assets amounted to MSEK 4,517, which was in line with year-end 2015.

Accounts receivables amounted to MSEK 3,295 as of 30 June 2016 and to MSEK 2,913 as of 31 December 2015. Amounts due from customers amounted to MSEK 5,170 as of 30 June 2016 and MSEK 7,549 as of 31 December 2015. The decrease is primarily attributable to payments received related to orders for GlobalEye and Gripen.

Capital expenditures

The cash flow effect of capital expenditures in tangible fixed assets amounted to MSEK 301 (350).

Investments in intangible fixed assets amounted to MSEK 476 (139), of which MSEK 412 (98) was related to capitalised development costs and MSEK 64 (41) to other intangible fixed assets.

Free cash flow, MSEK

Cash flow

Cash flow from operating activities excluding taxes and other financial items amounted to MSEK 5,010 (-1,320), see note 9.

Saab has an established programme to sell trade receivables in order to strengthen its financial position and increase financial flexibility. As of 30 June 2016 net receivables of MSEK 695 were sold, compared to MSEK 1,299 as of 31 December 2015. This had a negative effect on cash flow from operating activities in 2016 of MSEK 604.

Operational cash flow – defined as cash flow from operating activities, excluding taxes and other financial items, and acquisitions and divestments of intangible fixed assets and tangible fixed assets – amounted to MSEK 4,193 (-1,806). The strong operational cash flow in the first half-year 2016 compared to 2015 is mainly due to payments received from the Gripen programmes and the order for GlobalEye. Free cash flow amounted to MSEK 4,051 (-2,082). For more detailed information about the cash flow, see note 9.

Sales, income and margin

- Sales increased strongly during the first half-year 2016 compared to the same period in 2015. The increase is mainly attributable to the Gripen NG order for Brazil received in the third quarter 2015 and to Gripen E for Sweden.
- During the first half-year in 2016 and 2015, major investments were made in the T-X program, which had a slightly more negative impact on operating margin in 2016 than in 2015. These investments will continue in the second half of 2016.

Cash flow

- Aeronautics reported strong operational cash flow in the first half-year 2016 following substantial advances and milestone payments mainly related to Gripen NG for Brazil.

Large orders

Orders exceeding MSEK 100 was 8% (38) of total order bookings in the period.

Market

Sales related to markets outside Sweden was 29% (7) in the period.

Business units

Gripen E, Gripen C/D, Gripen Brazil, Advanced Pilot Training Systems and Operations Contracts.

BUSINESS AREA DYNAMICS

Dynamics offers a market-leading product portfolio comprising ground combat weapons, missile systems, torpedoes, unmanned underwater vehicles, training systems and signature management systems for armed forces around the world.

Orders

- During the first quarter 2016, Dynamics received an order for production and delivery of ammunition for the man-portable weapon system Carl-Gustaf. The total order value was approximately SEK 1.4 billion. Deliveries will take place in 2016-2019.
- During the second quarter, an order was received from FMV for the development and production of New Lightweight Torpedo system with a total value of approximately SEK1.5 billion.

Large orders

Orders exceeding MSEK 100 was 74% (56) of total order bookings in the period.

Sales, income and margin

- Sales increased during the first half-year 2016 compared to the same period in 2015 thanks to strong order bookings in 2015 and the first half-year 2016.
- The operating margin was strengthened during the first half-year 2016 compared to the same period in 2015 mainly as a result of increased deliveries, but also due to a change in the product mix.

Market

Sales related to markets outside Sweden was 82% (79) in the period.

Cash flow

- Operational cash flow was positive during the first half-year 2016 as a result of advance and milestone payments as well as completed deliveries.

- During the first half-year 2016, Surveillance and Support and Services received an order in the Airborne Early Warning and Control (AEW&C) segment amounting to about SEK 1.1 billion, of which MSEK 418 was related to Support and Services. Deliveries will take place in 2016-2018.
- In total, order bookings related to small orders increased by 33 per cent during the first half-year compared to the same period in 2015.

Sales, income and margin

- Sales increased during the first half-year 2016 compared to the same period 2015, mainly as a result of activity related to the GlobalEye order.
- The operating margin strengthened due to increased sales and the effects of ongoing efficiency improvements.

Cash flow

- Operational cash flow was strongly positive, mainly as a result of advances and milestone payments related to the 2015 for GlobalEye order.

Large orders

Orders exceeding MSEK 100 was 24% (0) of total order bookings in the period.

Market

Sales related to markets outside Sweden was 47% (43) in the period.

Business units

Aviation Services, Airborne ISR, Gripen Support, Networks and Public Safety, Tactical Solutions och Maintenance Production.

BUSINESS AREA INDUSTRIAL PRODUCTS AND SERVICES

The business units within Industrial Products and Services are focused on business-to-business (B2B) customers. There is also a minority portfolio containing Saab's ownership interest in companies in various stages of development.

Orders

- Order bookings were higher in the first half-year 2016 than the same period in 2015, mainly due to higher order bookings in the business units Aerostructures and Combitech.
- During the first half-year, Aerostructures signed an agreement with Airbus for the A321 Airbus Cabin Flex programme. The agreement comprises the design, development and manufacture of the Over Wing Door component.

Large orders

Orders exceeding MSEK 100 was 34% (15) of total order bookings in the period.

Sales, income and margin

- The operating margin was lower in the first half-year 2016 compared to the same period in 2015 due to the lower result in the minority portfolio where Saab owns shares in companies in various stages of development.

Market

Sales related to markets outside Sweden was 43% (46) in the period.

Cash flow

- Operational cash flow was negative in the first half-year 2016, mainly as a result of activity related to future deliveries in Aerostructures and Avionics Systems.

Business units

Aerostructures, Avionics Systems, Combitech and the Venture portfolio.

BUSINESS UNIT SAAB KOCKUMS

Saab Kockums' portfolio includes submarine systems with Stirling system for air-independent propulsion, surface combatants, mine hunting systems and autonomous vessels.

Orders

- Saab received an order from FMV to modify and upgrade two Swedish Navy Koster-class mine countermeasures vessels (MCMVs). The order value amounted to MSEK 147 and the work will be undertaken in Karlskrona, Sweden during the period 2016-2017.
- The high level of order bookings in the first half-year 2015 was mainly due to orders from FMV to build two Type A26 submarines and for half-time modifications of two Gotland class submarines.

Large orders

Orders exceeding MSEK 100 was 50% (95) of total order bookings in the period.

Sales, income and margin

- Sales increased during the first half-year 2016, mainly due to activity in the A26 programme for Sweden.
- Large deliveries to markets outside Sweden had a positive impact on the operating margin in the first half-year 2015.

Market

Sales related to markets outside Sweden was 6% (8) in the period.

Cash flow

- Operational cash flow during the first half-year 2016 was positive as a result of timing differences between milestone payments and activity.

Corporate

Corporate reported operating income of MSEK -137 (-8) during the first half-year 2016. During the second quarter, the sale of a property contributed positively to operating income.

Reversal of risk provisions, attributable to the remaining risks related to the termination of Saab's leasing fleet of turboprop aircraft (SAL), contributed positively to the operating income in 2015. The leasing portfolio was discontinued in 2015.

Operational cash flow attributable to Corporate amounted to MSEK -920 (-957) during the first half-year 2016. Sale of trade receivables had a negative effect of MSEK 604. See more information on cash flow on page 4.

Acquisitions and divestments 2016

No significant acquisitions or divestments were made during the first half-year 2016.

Share repurchase

Saab held 2,989,963 treasury shares as of 30 June 2016, compared to 3,193,279 at year-end 2015. The Annual General Meeting on 14 April 2016 authorised the Board of Directors to repurchase up to 10 per cent of Saab's shares to hedge Saab's Share Matching Plan and Performance Share Plan.

Risks and uncertainties

Saab's operations primarily involve the development, production and supply of technologically advanced hardware and software to customers around the world.

Projects generally entail significant investments, long periods of time and technological development or refinement of products. In addition to customer and supplier relations, international operations involve joint ventures and collaborations with other industries as well as the establishment of operations abroad.

Operations can entail various degrees of risk. The key risk areas are political, operating and financial. Various policies and instructions govern the management of material risks. Saab conducts significant development projects and manages the associated risks.

The market is characterised by challenging conditions where orders are deferred to the future partially for financial reasons, at the same time that customers are also dealing with shorter timeframes. All in all, market risk has increased, and the increased risk is expected to remain during 2016.

For a general description of the risk areas, see pages 44 to 47 of the annual report 2015.

Order for New Lightweight Torpedo system

The Swedish Defence Material Administration (FMV) has awarded Saab a contract to develop and produce the New Lightweight Torpedo system with a total value of SEK 1.5 billion and deliveries during the period 2016-2024.

Other significant events January-June 2016

- In February, Saab introduced GlobalEye, a new multi-role airborne surveillance system (AEW&C). GlobalEye combines Saab's all-new Erieye ER (Extended Range) radar and mission system with the high-end Global 6000 jet aircraft from Bombardier.
- The Annual General Meeting (AGM) on 14 April 2016 resolved to pay shareholders a dividend of SEK 5.00 per share (total MSEK 530). The record date was set at 18 April 2016 and the payment date 21 April 2016.
- The AGM resolved to elect Bert Nordberg and re-elect Håkan Buskhe, Johan Forssell, Sten Jakobsson, Sara Mazur, Per-Arne Sandström, Cecilia Stegö Child, Lena Treschow Torell, Marcus Wallenberg and Joakim Westh. Marcus Wallenberg was re-elected as Chairman of the Board.
- The Gripen E was rolled out on May 18. Users of Gripen E can operate longer in the air, improved sensors and electronic warfare will provide better intelligence on the enemy, and it will carry more and better weapons. At the same time Gripen E is highly cost-efficient. Deliveries of the next-generation Gripen to Sweden and Brazil will begin in 2019.

For information on significant orders received in 2016, see page 2 and the comments on the operating segments on pages 5 to 7 and in note 3.

Significant events after the conclusion of the period

- Saab received an order from the Australian Government regarding sustainment of the combat system on Australia's ANZAC class frigates. The order value was approximately MSEK 248. The work will be undertaken in 2016-2017.
- Saab received an order for explosive training mortar grenades. Deliveries will take place during the period 2016-2017.

ABOUT SAAB

Saab serves the global market with world-leading products, services and solutions ranging from military defence to civil security. The company has operations and employees on all continents and constantly develops, adapts and improves new technology to meet customers' changing needs.

Short facts

- Saab's series B share is listed on Nasdaq Stockholm Large Cap. Ticker: SAAB B.
- Saab has approximately 14,800 employees
- Local presence in 33 countries
- Customers in more than 100 countries

Vision

It is a human right to feel safe.

Mission

To make people safe by pushing intellectual and technological boundaries.

Business concept

Saab constantly develops, adapts and improves new technology to meet changing customer needs. Saab serves the global market of governments, authorities and corporations with products, services and solutions for defence, aviation and civil security.

ORGANISATION

Saab's operations are divided into six operating segments for control and reporting purposes: the business areas Aeronautics, Dynamics, Surveillance, Support and Services and Industrial Products and Services, and the business unit Saab Kockums. In addition, Corporate comprises Group staff, Group departments and secondary operations.

As of 1 January 2016, business area Security and Defence Solutions is dissolved and its business units moved to other operating segments.

To ensure presence in local key markets, Saab also has five market areas: Nordic & Baltic, Europe, Middle East & Africa, North America, Latin America, and Asia Pacific.

REVENUE MODEL

Saab's earnings are primarily generated by long-term customer contracts, service assignments and sale of goods. Sales, income and cash flow vary during the year depending on the nature of the project.

Long-term customer contracts are recognised in revenue as the project is completed, while cash flows depend on the timing of deliveries, advances and milestone payments during the contract period.

Service assignments consist of consulting and support services. Examples include education and ongoing maintenance associated with previous deliveries. Revenue from service assignments on current account is recognised when the services are rendered, while service assignments that are part of fixed-price contracts are recognised according to the same principles as long-term customer contracts.

The third part of the revenue model is the sale of products and spare parts that Saab manufactures and stocks or purchases on behalf of customers. This revenue is recognised when ownership has been transferred to the buyer.

SAAB'S STRATEGY

Saab's strategy is built on four priority areas. Our aim is to create long-term value by accomplishing these strategic priorities.

Saab shall also maintain a solid balance sheet, focus on capital efficiency and generate strong cash flow.

Profitable growth

Effective project execution, focused marketing investments and winning new orders.

Performance

Efficient, functional processes, strong leadership, global research and development.

Portfolio

Focus on core areas, market-driven renewal, international focus and sustainable innovations.

People

Talent recruitment, skills development, increased diversity and performance-driven culture.

FINANCIAL GOALS

Sales

Average organic sales growth of 5 per cent per year over a business cycle.

Operating margin

Average operating margin (EBIT) of at least 10 per cent per year over a business cycle.

Equity/assets ratio

The equity/assets ratio will exceed 30 per cent.

Dividend

The long-term dividend goal is to distribute 20–40 per cent of net income to the shareholders over a business cycle.

NOTE 3 Segment reporting

Saab is a leading high-technology company, with its main operations in defence, aviation and civil security. Operations are primarily focused on well-defined areas in defence electronics, missile systems, and naval systems as well as military and commercial aviation. Saab is also active in technical services and maintenance. Saab has a strong position in Sweden and the main part of sales is generated in Europe. In addition Saab has a local presence in South Africa, Australia, the US, and in other selected countries. Saab's operating and management structure is divided into five business areas and one business unit, which are also operating segments; Aeronautics, Dynamics, Surveillance, Support and Services, Industrial Products and Services, and Saab Kockums. In addition, Corporate comprises Group staff and departments as well as other operations outside the core operations.

Aeronautics

Aeronautics is a world-leading manufacturer of innovative aerial systems and is engaged in development of military aviation technology. It also conducts long-term future studies of manned and unmanned aircraft as preparation for new systems and further development of existing products.

Dynamics

Dynamics offers a market-leading product portfolio comprising ground combat weapons, missile systems, torpedoes, unmanned underwater vehicles, systems for training and simulation, signature management systems for armed forces around the world, and niche products for the civil and defence markets.

Surveillance

Surveillance provides efficient solutions for safety and security, for surveillance and decision support, and for threat detection and protection. The portfolio covers airborne, ground-based and naval radar, electronic warfare, combat systems and C4I solutions, and traffic management systems.

Support and Services

Support and Services offers reliable, cost-efficient service and support for all of Saab's markets. This includes support solutions, technical maintenance and logistics as well as products, solutions and services for military and civil missions.

Industrial Products and Services

The business units within Industrial Products and Services are focused on business-to-business (B2B) customers. There is also a minority portfolio containing Saab's ownership interests in companies in various stages of development.

Saab Kockums

The business unit Saab Kockums develops, delivers and maintains world-class solutions for naval environments. The business unit's portfolio includes submarines with the Stirling system for air independent propulsion, surface combatants, mine hunting systems and autonomous vessels. Saab Kockums' unique competence is in signature management, impact strength and advanced stealth technology.

Information on large customers

In the first half-year 2016, Saab had one customer that accounted for 10 per cent or more of the Group's sales: the Swedish Defence Materiel Administration (FMV). FMV is a customer of all business areas and total sales amounted to MSEK 4,834 (4,414).

Seasonal variation

A major part of Saab's business is related to large projects where the revenue is recognised by using the percentage of completion method. The costs incurred in these projects are normally lower during the third quarter compared with other quarters. The fourth quarter is also usually affected by a higher number of deliveries, mainly within Dynamics.

Since 2009 Saab has a Medium Term Note programme (MTN) to enable the issuance of long-term loans on the capital market. In 2015 the MTN programme was increased from SEK 3 billion to SEK 6 billion. Under the terms of this programme Saab has issued fixed rate bonds as well as Floating Rate Notes (FRN) totalling SEK 4.2 billion. In December 2015, Saab signed Schuldschein loan agreements amounting to MEUR 100, of which MEUR 90 was settled in the fourth quarter 2015 and the first quarter 2016. The remaining MEUR 10 was settled in the second quarter 2016.

Valuation methods for financial assets and liabilities

The fair value of listed financial assets is determined using market prices. Saab also applies various valuation methods to determine the fair value of financial assets that are traded on an inactive market or are unlisted holdings. These valuation methods are based on the valuation of similar instruments, discounted cash flows or customary valuation methods such as Garman-Kohlhagens.

Level 1

According to listed (unadjusted) prices on an active market on the closing date:

- Bonds and interest-bearing securities
- Electricity derivatives
- Interest rate forwards

Level 2

According to accepted valuation models based on observable market data:

- Forward exchange contracts: Future payment flows in each currency are discounted by current market rates to the valuation day and valued in SEK at period-end exchange rates.
- Options: The Garman-Kohlhagens option pricing model is used in the market valuation of all options.
- Interest swaps and cross currency basis swaps: Future variable interest rates are calculated with the help of current forward rates. These implicit interest payments are discounted to the valuation date using current market rates. The market value of interest rate swaps is obtained by contrasting the discounted variable interest payments with the discounted present value of fixed interest payments.

Level 3

According to accepted principles, e.g. for venture capital firms:

- Unlisted shares and participations

As of 30 June 2016 the Group had the following financial assets and liabilities at fair value:

Assets at fair value

REVIEW REPORT

Introduction

We have reviewed the condensed interim financial information of Saab AB for the period from 1 January to 30 June 2016. The board of directors and the president are responsible for the preparation and presentation of this interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410 Review of Interim report performed by the Independent auditor of the entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is

substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, the conclusion expressed based on a review does not give the same level of assurance as conclusion expressed based on an audit.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts act for the Group, and with the Swedish Annual Accounts act for the parent company.
