

Company Announcement  
August 1, 2016

## **Episurf Medical has been granted additional European patent**

**Episurf Medical has obtained another granted patent in Europe. The patent covers a surgical drilling guide with a functionality for depth adjustments. This guide constitutes a component of Episurf's toolkit for implantation of patient specific joint implants. This is the first patent in this family of patents to be granted.**

The generation of new intellectual property and the ongoing maintenance of current IP are key activities which ensures that Episurf's proprietary, existing technologies and future innovations are well protected. The company currently has approximately 80 active patents and patent applications, distributed in 20 patent families.
