INVISIO receives follow-up order from the US Army

INVISIO (IVSO) has received another order from US army's modernization program TCAPS. The order value amounts to approximately SEK 10 million and delivery is planned to take place successively in 2016.

In late June, INVISIO received an order of approximately SEK 100 million under the TCAPS modernization program. Both orders were via INVISIO's local partner TEA.

TCAPS, the Tactical Communication and Protective System, is one of the world's largest modernization programs for hearing protection and communication. Run by the US Army and PEO soldier, the program approved and implemented INVISIO's product solutions in 2013 to reduce the risk of hearing loss and improve the wearer's communication potential.

More information about the program can be found in PEO Soldier's video The Tactical Communication and Protective System (TCAPS):

About INVISIO Communications AB (publ)

INVISIO offers cutting-edge personal communication and hearing protection systems. The systems enable users to operate and communicate safely and clearly in all environments, even under extreme conditions, such as loud noise, heat, and underwater. INVISIO systems consist of headsets and advanced control units that interface to a wide range of communication devices. The systems provide hearing protection while maintaining the natural level of situational awareness. Customers are mainly from the public sector. Sales are made via a global network of partners and to some extent directly to end customers. INVISIO is listed on Nasdaq Stockholm (IVSO). Additional information is available on the company's website, www.invisio.com.
