INVISIO receives follow-up order from existing army customer within NATO

INVISIO (IVSO) has received an order worth approximately SEK 7.0 million from one of the company's existing army customers within NATO. The order is a follow-up order and includes the INVISIO V60 communication and hearing protection system. Delivery is planned to take place in 2016.

The customer has been using INVISIO's equipment since 2012 and earlier this year ordered products valued approximately 6.5 million.

INVISIO's advanced communication systems with hearing protection enable professionals working in noisy and mission-critical environments to communicate and collaborate effectively. The systems consist of headsets and control units connected to an external team radio or a vehicle's intercom system, for example.

About INVISIO Communications AB (publ)

INVISIO offers cutting-edge personal communication and hearing protection systems. The systems enable users to operate and communicate safely and clearly in all environments, even under extreme conditions, such as loud noise, heat, and underwater. INVISIO systems consist of headsets and advanced control units that interface to a wide range of communication devices. The systems provide hearing protection while maintaining the natural level of situational awareness. Customers are mainly from the public sector. Sales are made via a global network of partners and to some extent directly to end customers. INVISIO is listed on Nasdaq Stockholm (IVSO). Additional information is available on the company's website, www.invisio.com.
