

## Status update -Jolly

On August 31 three helicopter systems left CybAero in Linköping for delivery to Jolly in China. The systems have just passed the customs in China. The Factory Acceptance tests (FAT) are now expected to begin around October/November.

**About CybAero**

*CybAero develops and manufactures Remotely Piloted Aircraft Systems (RPAS) for safer and more effective aerial operations in various environments, including those hazardous in nature. The company has made a great international impact with its APID One helicopter, which can be adapted for both military and civilian applications such as coastal and border surveillance, search and rescue missions, and mapping. CybAero's head office is located in the Mjärdevi Science Park in Linköping, Sweden. The company has around 50 employees and has been listed on the Nasdaq First North since 2007. FNCA Sweden AB is the company's*
