## Market

The long-term growth prospects for exotic fruits and vegetables markets are excellent. Avocados, blueberries, tangerines and mangos are growing, with headroom for increased per capita consumption in key markets.

The Company expects good demand for all fresh produce in general and for avocados and blueberries specifically in both the United States and Europe.

The Company expects to continue its diversification strategy by increasing the production capacity of blueberries and shrimp and other minor related products.

## Camposol appoints new CEO

CAMPOSOL's Board of Directors announces that Mr. Jorge Ramirez has been appointed new CEO of Camposol Foods, after the resignation of Manuel Salazar.

Mr. Ramirez has been acting as Camposol Seafood General Manager since October 2015.

## New midterm facility

Camposol signed a new USD 15 million midterm facility with Interbank, a major Peruvian bank. Camposol has secured this facility as part of the refinancing program of the bonds due February 2017.

## Outlook

The Company is currently focused on adding value to its clients through commercial, marketing and service initiatives, which should result in higher margins.

Additionally, CAMPOSOL is analyzing new opportunities to consolidate its leadership through additional planting of current crops, planting of new crops, strategic alliances and acquisitions.

CAMPOSOL will continue positioning itself in the fresh and frozen segments in which has made significant investments in recent years, and thus maximize opportunities for growth and consolidation of their business.

## Selected disclosure notes

## 1. Basis of preparation

This condensed consolidated financial information for the third quarter ended September $30^{\text {th }}$, 2016 has been prepared in accordance with IAS-34, 'Interim financial reporting' (IFRS). The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended December $31^{\text {st }}, 2015$ which have been prepared in accordance with IFRS.

## 2. Significant accounting policies

The consolidated financial statements have been prepared on historical cost basis, except biological assets and derivative financial instruments, which have been measured at fair value and in accordance with IFRS.

The financial statements are presented in United States dollars (USD) and all monetary amounts are rounded to the nearest thousand (USD '000) except when otherwise indicated. The financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the financial statements as of December $31^{\text {st }}, 2015$.

The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the preparation of the financial statements for the year ended December $31^{\text {st }}, 2015$.

## 4. Administrative expenses

Administrative expenses decreased from USD 18.9 million in the first nine months of 2015 to USD 18.0 million in the same period of 2016. The decrease of USD 0.9 million is mainly explained by lower expenses in professional expenses, renting, travel, transport and telecommunications.

## 12. Seasonality

Company production is subject to seasonal fluctuations, with peak production in the third to fourth quarter of the year. This is due to seasonal weather conditions which affect production.

## 13. Use of NON-GAAP measures

In the discussion of operating results, CAMPOSOL refers to certain non-GAAP financial measures such as EBITDA. CAMPOSOL's management makes regular use of these measures to evaluate the performance, both in absolute terms and comparatively from period to period. EBITDA, which CAMPOSOL defines as sales minus cost of goods sold, administrative and selling expenses plus depreciation, amortization and amortization without IAS-41, is an approximation of cash flow from continuing operating activities before tax and net operating capital changes. Amortization without IAS-41 is the cost assigned to cost of goods sold that under an accounting without IAS-41 would be considered amortization.

CAMPOSOL's definition of EBITDA may differ from that of other companies. EBITDA should not be considered as an alternative to operating income and income before tax as an indicator of the Company's operations in accordance with IFRS. Nor is EBITDA an alternative to cash flow from operating activities in accordance with IFRS. A reconciliation of EBITDA to total profit before income tax is provided as follows:

|  | For the third quarter |  | For the period ended |  | For the year ended |
| :---: | :---: | :---: | :---: | :---: | :---: |
