## SECOND QUARTER

- Order intake rose 7 percent to SEK $1,688 \mathrm{M}(1,573)$, up 1 percent adjusted ${ }^{1}$.
$>$ Dehumidification continued its strong growth, with high demand for energy-efficient products for commercial premises.
$>$ MCS was adversely affected by very dry weather conditions until the second half of June, when parts of Europe had heavy rain.
$>$ HumiCool continued to develop favorably, but was affected by low demand for precoolers for gas turbines compared with the strong second quarter in 2006.
- Net sales increased by 5 percent to SEK 1,524 M $(1,456)$, adjusted ${ }^{1}$.
- Net earnings totaled SEK 70 M (79).
$>$ Continued improvement of earnings and operating margin within Dehumidification and HumiCool, excluding the newly acquired Sial.
$>$ Weakened earnings caused by dry weather and nonrecurring items of SEK 10 M within the MCS Division, and normal seasonal operating losses within Sial of SEK 10.5 M.
> Cost-reduction program initiated at MCS.
- Earnings per share amounted to SEK 0.95 (1.06).
- Agreement signed to acquire Danish-based Turbovent at the end of June strengthens HumiCool's position in climate control for the farming industry.

Munters is the world leader in humidity control, offering products and services for water and fire damage restoration, dehumidification, humidification and air cooling. Munters' business concept is to be a global service and application-driven niche company in air treatment, with a focus on environmentally friendly and energy-efficient solutions. Operations are organized in three divisions: Dehumidification, MCS (Moisture Control Services) and HumiCool. Manufacturing, sales and service operations are conducted through the Group's own companies, which have 3,900 permanent employees in 30 countries. The Munters share is listed on the Nordic Mid Cap list.

## SECOND QUARTER

## Order intake

During the second quarter, order intake rose 7 percent to SEK 1,688 M $(1,573)$. Adjusted pro forma for currency effects, acquisitions and divestments, the increase was 1 percent. Dehumidification had an extremely strong order intake as a result of continued high demand for energy-efficient products for the cooling and dehumidification of commercial premises and the acquisition of Des Champs. However, order intake was relatively weak within MCS that was attributable to warm and weather in Europe, the US and Australia for a large part of the quarter, which had a negative effect on the water damage frequency. The heavy rains and flooding that have recently affected the UK and other areas of northern Europe will mainly impact order intake and sales during the second half of the year.

The order backlog rose by 27 percent compared with the preceding year and totaled SEK $1,306 \mathrm{M}(1,028)$ at the end of the quarter.

## Net sales

Consolidated net sales increased by 5 percent to SEK $1,524 \mathrm{M}(1,456)$. Adjusted ${ }^{1}$, the increase was 5 percent. The stronger krona compared with the preceding year had an adverse effect of 3 percent on net sales in Swedish kronor.

## Earnings

EBIT for the Group amounted to SEK 119 M (129). Adjusted for currency and acquisitions, the increase was 6 percent. The operating margin amounted to 7.8 percent (8.8). Dehumidification and HumiCool, excluding the recently acquired Sial, noted continued improved earnings and margins, while MCS was negatively affected by lower net sales, increased costs for growth initiatives, and nonrecurring costs of approximately SEK 10 M related to operations in Italy and France. A cost-reduction program was initiated at MCS to increase profitability.

Sial, which was acquired by HumiCool in November 2006 and manufactures portable heaters, has as earlier communicated a strongly pronounced seasonal variation, with extremely weak net sales and earnings in the second quarter and normally extremely strong earnings in the fourth quarter, which had a negative effect on Group operating earnings during the quarter by SEK 10.5 M .

2004 and prior years in accordance with previous accounting principles

Consolidated earnings after financial items amounted to SEK 110 M (125). Net earnings for the quarter declined to SEK 70 M (79). Earnings per share amounted to SEK 0.95 (1.06), corresponding to a decrease of 10 percent.

## Cash flow

Operating cash flow amounted to SEK 8 M (110). The decrease was caused by higher tax expenses, increased inventory, mainly driven by seasonal inventory accumulation in Sial and advance investments in dehumidifiers in MCS.

[^0]
## INTERIM PERIOD

## Order intake

During the period, the Group's order intake increased by 4 percent to SEK $3,215 \mathrm{M}(3,088)$. Adjusted ${ }^{1}$, the increase was 3 percent.

## Net sales

The Group's net sales rose by 3 percent to SEK $2,928 \mathrm{M}(2,841)$. Adjusted ${ }^{1}$, the increase was 5 percent.

## Earnings

EBIT for the Group declined by 0.3 percent to SEK 246 M (247). Adjusted for currency, acquisitions and disposals, the increase was 8 percent. The EBIT margin amounted to 8.4 percent (8.7).

Consolidated earnings after financial items amounted to SEK 231 M (238). Net earnings for the six-month period declined to SEK 148 M (150) after an effective tax rate of 36 percent (37). Earnings per share amounted to SEK 1.99 (2.02), corresponding to an increase of 1 percent.

## Investments

The Group's investments in fixed assets during the period amounted to SEK 87 M (56), of which SEK 40 M (22) pertained to investments in MCS equipment. Depreciation and impairment amounted to SEK 75 M (76).

## Financial position

At the end of the period, the equity/assets ratio amounted to 29 percent ( 48 at the start of the year). Interest-bearing assets amounted to SEK 291 M (201 at the beginning of the year) and interest-bearing provisions and liabilities to SEK 1,427 M (458 at the beginning of the year). During the year, net debt has risen by SEK 881 M to SEK $1,138 \mathrm{M}$, as the result of a redemption program of SEK 494 M , the acquisition of Des Champs for SEK 254 M and the ordinary dividend payment. The Group has unutilized Ioan facilities of SEK 931 M.

## Personnel

At the end of the period, the number of permanent employees was 3,915 persons, an increase of 363 persons during the year. In the Dehumidification Division, the number of personnel increased by 226 persons, of which Des Champs, acquired in April, represents 196 persons, 71 in the MCS Division and 66 persons in the HumiCool Division.

[^1]
## DIVISIONAL PERFORMANCE

## Dehumidification Division

The Dehumidification Division is divided into three business area, Industrial Dehumidification, Commercial Dehumidification and Zeol.

|  | 2nd Quarter |  |  | Jan-Jun |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
| SEK M | $\underline{\mathbf{2 0 0 7}}$ | $\underline{\mathbf{2 0 0 6}}$ |  | $\mathbf{2 0 0 7}$ | $\underline{\mathbf{2 0 0 6}}$ |
| Order Intake | 556 |  | $\mathbf{4 6 5}$ |  | 999 |
| Change | $20 \%$ |  | $12 \%$ |  |  |
| Adjusted change | $10 \%$ |  | $10 \%$ |  |  |
| Net Sales | 528 | 419 | 898 | 779 |  |
| Change | $26 \%$ |  | $15 \%$ |  |  |
| Adjusted change | $19 \%$ |  | $15 \%$ |  |  |
| Operating Earnings | 69 | 49 | 107 | 79 |  |
| Operating Margin | $13.1 \%$ | $11.8 \%$ | $11.9 \%$ | $10.1 \%$ |  |

## Second quarter

The division's order intake remained string during the period, partly thanks to the acquisition of Des Champs, but also adjusted for acquisitions and currency. Industrial Dehumidification experienced a favorable trend, with continued solid market foundations. Commercial Dehumidification continued its highly rapid growth due to a high level of demand for energyefficient products for dehumidification and cooling. The order intake from WalMart was favorable and the anticipated decline in the new construction of business premises was offset by a program of exchange for older, less energyefficient units. The trend for other national customers was also very strong. Newly acquired Des Champs was very positively affected by the same market trends and secured a number of significant orders during the period. Order intake for Zeol, on the other hand, remained weak due to low demand from the semiconductor industry.

Net sales developed very strongly during the quarter, up 19 percent adjusted for currency and acquisitions. Only Zeol reported a weak trend.

Operating earnings also improved sharply, up 40 percent adjusted, driven by the strong growth and solid cost control.

## Six-month period

The Division reported sharp improvement in its order intake, net sales and earnings in the first half of the year, despite high comparison figures from the first half of 2006. The Commercial business area especially reported a strong trend, aided by the successful acquisition of Des Champs. The Zeol business area, on the other hand, entered into a sharp cyclical decline during the period, due to weak demand from the semiconductor industry.

## MCS Division

The MCS Division is divided into six market areas: the Nordic Region, Central Europe, the UK and Ireland, Southern and Western Europe, the Americas, and Asia.

| SEK M | 2nd Quarter |  | Jan-Jun |  |
| :--- | ---: | ---: | ---: | ---: |
|  | $\underline{\mathbf{2 0 0 7}}$ | $\underline{\mathbf{2 0 0 6}}$ | $\underline{\mathbf{2 0 0 7}}$ | $\underline{\mathbf{2 0 0 6}}$ |
| Order intake | 634 | 654 | $\mathbf{1 , 2 6 7}$ | $\mathbf{1 , 3 0 4}$ |
| Change | $-3 \%$ |  | $-3 \%$ |  |
| Adjusted change $^{1}$ | $-1 \%$ |  | $0 \%$ |  |
| Net sales | 605 | 635 | 1,219 | 1,295 |
| Change | $-5 \%$ |  | $-6 \%$ |  |
| Adjusted change $^{1}$ | $-3 \%$ |  | $3 \%$ |  |
| Operating earnings | 10 | 29 | 48 | 75 |
| Operating margin | $1.7 \%$ | $4.6 \%$ | $4.0 \%$ | $5.8 \%$ |

## Second quarter

Order intake and net sales during the quarter declined somewhat compared with the extremely strong year-earlier period. Compared with the second quarter of 2005, however, order intake was 27 percent higher and MCS continued to gain market shares in Europe. The hot, dry weather in Europe, the US and Australia, which is highly unfavorable for MCS, continued during the quarter until the end of June, when severe rain and flooding in Northern and Western Europe - particularly in the UK - resulted in increased orders. This had a limited impact on the second quarter, but will generate a positive effect in the second half of the year.

Operating earnings and the operating margin were weak during the quarter, which, seasonally, is also usually the weakest quarter of the year. Apart from the lower sales driven by unfavorable weather, earnings were also impacted by approximately SEK 10 M in nonrecurring costs related to a reassessment of the recoverability of older accounts receivable in the French company and a management change in the Italian company. Moreover, cost investments in growth initiatives, primarily in the US, have not yet generated the anticipated return, partly due to intense competition in the American market in conjunction with low damage frequency. However, the trend of improvement in Germany continued, with positive earnings for the quarter.

An aggressive cost-reduction program was initiated during the quarter to improve the division's profitability. In addition, MCS' strategic initiatives will also be prioritized more intensively to enhance the efficiency of its business model and improving sales to key customers, such as major insurance companies.

## Six-month period

The weak start to 2007 was driven by highly unfavorable weather and the limited success of growth initiatives. The long-term market con-
solidation trends identified previously remains unchanged, however, and the proportion of fixed framework agreements is rising steadily.
MCS is well-positioned to benefit from these trends and further focus on adapting and enhancing the efficiency of the business model will give the division favorable conditions for improved profitability.

## HumiCool Division

The HumiCool Division is divided into four business areas: AgHort, Mist Elimination, HVAC and PreCooler.

| SEK M | 2nd Quarter |  | Jan-Jun |  |
| :--- | ---: | ---: | ---: | ---: |
|  | $\underline{\mathbf{2 0 0 7}}$ | $\underline{\mathbf{2 0 0 6}}$ | $\underline{\mathbf{2 0 0 7}}$ | $\underline{\mathbf{2 0 0 6}}$ |
| Order intake | 518 | $\mathbf{4 6 2}$ | 983 | 912 |
| Change | $12 \%$ |  | $8 \%$ |  |
| ${\text { Adjusted change }{ }^{1}}^{-4 \%}$ |  | $2 \%$ |  |  |
| Net sales | 414 | 411 | 843 | 787 |
| Change | $1 \%$ |  | $7 \%$ |  |
| Adjusted change ${ }^{1}$ | $4 \%$ |  | $9 \%$ |  |
| Operating earnings | 55 | 63 | 114 | 113 |
| Operating margin | $13.3 \%$ | $15.2 \%$ | $13.6 \%$ | $14.4 \%$ |

## Second quarter

Order intake rose 12 percent in Swedish kronor during the quarter, driven by the seasonally high order intake for Sial. Adjusted for acquisitions and disposals and currency fluctuations, order intake was down 4 percent. The decline was driven by the smaller number of large projects for pre-coolers for gas turbines than in the strong year-earlier period. The weak order intake in AgHort in the US was also ongoing, but there were signs of improved market fundamentals. The other business areas were relatively strong. Preseason orders to Sial have not been as heavily impacted to date by the mild 2006/2007 winter as previously feared.

Net sales rose during the quarter by 4 percent adjusted for currency and acquisitions. Sales were adversely impacted by AgHort in the US and by a temporary delivery reduction in Mist Elimination.

Earnings remain strong, but were sharply impacted during the quarter by losses in Sial in conjunction with the annual low season for heaters. Excluding Sial, the operating margin improved during the quarter.

## Six-month period

The trend of the operations remained stable compared with the high comparison figures from the first half of 2006. The underlying margin improvement also continued.

[^2] disposals.

## Acquisition of Turbovent

An agreement for the acquisition of Danish company Turbovent was signed on June 28 and approved by the competition authority on July 12. With this acquisition, Munters HumiCool strengthens its position as a leading supplier of climate control equipment for the agricultural segment.

Turbovent mainly manufactures ventilation equipment for poultry, pig and cattle farms in Scandinavia, Germany and Eastern Europe. Turbovent is also a leader in air cleaning and odor removal solutions for the agricultural industry. The company employs about 45 people, and has rolling 12-month sales of DKK 69 M .

Munters has acquired 100 percent of the shares in Turbovent Agro A/S and Turbovent Environment A/S for DKK 65.5 M in cash. It is expected this will favorably impact Munters' earnings per share in 2007.

## KEY RISKS AND UNCERTAINTY FACTORS

The risk exposure of Munters can be divided in two categories; operational risks such as weather dependent, dependence of key personnel and key customers, and geographically spread operations with small operational units; together with financial risks mainly currency-, interest- and financing risks.

After a period of relative few acquisitions has the number of acquisitions increased which might lead to integrate risks. During the sixmonth period, the financial risks, which are primarily interest-rate risks and currency risks, are deemed to have increased due to higher external borrowing as a consequence of acqustions and redemption of treasury shares. A more detailed description of the Group's and the Parent Company's other risk exposure and risk management may be found in the "Risk management" section, pages $30-31$, of the Munters Annual Report, which is available on www.munters.com.

## TRANSACTIONS WITH RELATED PARTIES

There are no significant contractual relationships or transactions between Munters and its related parties.

## PARENT COMPANY

The Parent Company's earnings after financial items amounted to SEK 144 M (115) for the sixmonth period. There were no external net sales (as was the case in the preceding year). Cash and cash equivalents at the close of the period amounted to SEK 80 M (20) and the net debt amounted to SEK 1,186 M (295). Investments amounted to SEK 8 M (5). The number of employees was 18 (21)

## FUTURE INFORMATION DATES

October 18 Interim report January-September
The Board of Directors and the CEO certify that the half-yearly financial report gives a fair review of the performance of the business, position and earnings of the Company and the Group, and describes the principal risks and uncertainties that the Company and the companies in the Group face.

## Report on Review of Interim Financial Information

To the Board of Directors of Munters $A B$ (publ)

## Introduction

We have conducted a review of the financial interim report for Munters AB at June 30, 2007 and for the period January 1 to June 30, 2007. The Board of Directors and the President are responsible for the preparation and fair presentation of this interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim financial information based on our review.

## Focus and scope of review

We conducted our review in accordance with the International Standard on Review Engagements, SÖG 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other general review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing in Sweden RS and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying six-month financial information has not in all essential respects been prepared, as regards the consolidated information, in accordance with IAS 34 and the Annual Accounts Act, and as regards the Parent Company information, in accordance with the Annual Accounts Act.

${ }^{1}$ The periods Q4 2005 to Q3 2006 have been restated in accordance with new option in IAS 19 applied in 2006.
${ }^{2}$ The market cap is calculated on total number of issued shares, including treasury shares.
${ }^{3}$ Historical data for the share are adjusted for the share split, redemption and bonus issue performed in second quarter 2007.

## Notes

Note 1. Accounting principles
This interim report has been prepared in accordance with IAS 34, Interim Financial Reporting, which complies with the requirements stipulated in the Swedish Financial Accounting Standards Council's recommendation RR 31, Interim reporting for groups. The accounting principles applied in this interim report are those described in

Note 2 of the Annual Report for 2006. Changes based on the application of the EU Transparency Directive were made in this interim report. The changes mainly involved increased disclosures regarding risks and uncertainty factors, as well as information about the Parent Company.

Note 2. Changes in equity

|  | 2007 <br> 30 Jun | $\mathbf{2 0 0 7}$ <br> $\mathbf{3 1}$ Mar | $\mathbf{2 0 0 6}$ <br> $\mathbf{3 1}$ Dec | $\mathbf{2 0 0 6}$ <br> $\mathbf{3 0}$ Jun |
| :--- | ---: | ---: | ---: | ---: |
| Equity at the beginning of the year | $\mathbf{1 , 5 0 6}$ | $\mathbf{1 , 5 0 6}$ | $\mathbf{1 , 4 3 7}$ | $\mathbf{1 , 4 3 7}$ |
| Total recognized income and expenses for the period | 211 | 124 | 201 | 65 |
| Change in minority interest | -2 | -2 | -2 | -2 |
| Sales of treasury shares | 11 | 12 | 3 | - |
| Payment received for issued stock options | - | - | 2 | 2 |
| Dividend | -166 | - | -135 | -135 |
| Redemption of shares | -494 | - | - | - |
| Equity at the end of the period | $\mathbf{1 , 0 6 6}$ | $\mathbf{1 , 6 4 0}$ | $\mathbf{1 , 5 0 6}$ | $\mathbf{1 , 3 6 7}$ |

A dividend totaling SEK 166 M , corresponding to SEK 6.75 per share (before the share split) was implemented during the second quarter of 2007. The redemption of shares was implemented in the second quarter and involved the transfer of SEK 494 M to shareholders. The Board's proposal for the dividend and redemption of shares that was approved by the Annual General Meeting on April 24, 2007, can be read in its entirety on Munter's website.

## Note 3. Acquisition of operations

## Des Champs Technologies

On April 4, the American company Des Champs Technologies was acquired. Munters acquired 100 percent of the shares in Entrodyne Corporations, which is the holding company of Des Champs. The company is a technological leader in solutions for energy-efficient air treatment and manufactures mainly customer-adapted ventilation and air-conditioning systems for commercial buildings. The company has been consolidated as of April 2007. The acquired operations contributed SEK 68 M in revenue for the period from April 1, 2007 to June 30, 2007. If the acquisition had taken place on January 1, 2007, the company would have contributed SEK 119 M in revenue for the Group during the six-month period.

Information on acquired net assets and goodwill is as follows:
Purchase consideration

- purchase consideration paid in cash 254
- expenses directly attributable to the acquisi-
tion
4
Total acquisition value 258

| Fair value of the acquired net assets |  |
| :--- | ---: |
| Goodwill | -45 |

Goodwill is attributable to anticipated future synergies in product integration, technology and distribution. Apart from the synergies, the company's expertise in heat-exchange technology and its future earnings potential are also components of the goodwill item.

| The acquired company's net assets at the | Fair value, <br> adjustment | Fair values |  |
| :--- | ---: | ---: | ---: |

Purchase consideration paid in cash and expenses directly attributable to the acquisition 258
Cash and cash equivalents in the acquired company -5
Change in the Group's cash and cash equivalents at the time of the acquisition 253

The distribution of the acquisition value has not been definitively established.

## Turbovent

On July 12, the German Competition Authority approved the acquisition of the companies Turbovent Agro A/S and Turbovent Environment A/S in Denmark. The companies will be consolidated as of July 1, 2007. Turbovent primarily manufactures ventilation equipment for the breeding of birds, pigs and cattle in Scandinavia, Germany and Eastern Europe. Turbovent is also at the leading edge in terms of air cleaning and odor removal solutions for the farming industry.

Information on acquired net assets and goodwill is as follows:
Purchase consideration

| - purchase consideration paid in cash | 81 |
| :--- | ---: |
| Total acquisition value | $\mathbf{8 1}$ |
| Fair value of acquired net assets | -13 |
| Goodwill and other surplus values | 68 |

Goodwill and other surplus values are attributable to anticipated future synergies within product integration and technology.

| The acquired companies' preliminary | Reported |
| :--- | ---: |
| net assets at the time of acquisition: | values |
| Tangible fixed assets | 4 |
| Noninterest-bearing receivables | 31 |
| Cash and cash equivalents | -2 |
| Interest-bearing liabilities | -8 |
| Interest-free liabilities | -12 |
| Net identifiable assets and liabilities | $\mathbf{1 3}$ |

Purchase consideration paid in cash and expenses directly attributable to the acquisition
Cash and cash equivalents in the acquired companies
Change in the Group's cash and cash equivalents at the time of the acquisition 83

The distribution of the acquisition value has not commenced.

Note 4. Interest-bearing liabilities in Munters AB
In the second quarter, Munters $A B$ signed an agreement for a revolving credit facility agreement (multicurrency) with a syndicate of five banks. The credit amounts to SEK $2,000 \mathrm{M}$. In the second quarter, the credit was utilized for an acquisition of operations and for the redemption of treasury shares.
