

IT – Invitation to Business Developers / IT Forum (05/17)

Nasdaq Nordic is pleased to invite you to our forum for presentation and discussions about coming products, updates, and changes that may have technical impact to market participants.

The seminar is targeted primarily at IT and business development personnel involved in transaction services towards Nasdaq Nordic, the main objective is to inform about current initiatives and upcoming products and services and discuss their technical impact. This time we also welcome personnel involved in MiFID II operational readiness activities.

Presenters will be business analysts, product specialists as well as technical account managers.

Identical forums will be held in Stockholm, Copenhagen and in London. **For our Helsinki and Oslo customers, please mail us for individual meetings.**

Please note: *The focus for this IT Forum will be on the MiFID II technical and operational implementation project. Business related changes will be presented in a separate MiFID II seminar later in Q2 2017.*
