### Full-year 2007 pre-tax profit outlook lifted

The outlook concerning full-year pre-tax profit has been lifted to the region of DKK 190-210 million compared with the outlook in the interim financial report for the first quarter of 2007 of pre-tax profit in the region of DKK 170-190 million. The original full-year outlook announced in the 2006 annual report was pre-tax profit in the region of DKK 140-160 million.

The background for the raised profit outlook is the continued very positive development in the Polish market and a slightly weaker development in the German market.
