Danware's core business is to develop and market software products based on the NetOp® core technology – a technology enabling swift, secure and seamless transfer of screens, sound and data between two or more computers. The company's three product areas are Desktop Management, Education and Security. The core product in Desktop Management, NetOp® Remote Control, enables remote control of one or more computers from another computer. NetOp® School, the core product in Education, is a software application for computer-based classroom teaching. The Security business products are NetOp® Desktop Firewall and NetOp® Netfilter. All are plug 'n play products offering extensive functionality, flexibility and user-friendliness. Danware's products are sold in more than 80 countries. In 2006, the company generated revenue of DKK 98m. Danware's shares are listed on the Copenhagen Stock Exchange (ticker DANW) and are a component of the Small Cap+ index.
