

Munters new capital structure

As a part of the redemption procedure approved by the Annual General Meeting 24 April 2007, Munters AB carried out a share split where each share was split into four shares, of which one redemption share. Upon completion of the redemption procedure the redemption shares are redeemed at a redemption price of SEK 20 per share and Munters' share capital is increased as compared to prior to the redemption procedure.

The Swedish Companies Registration Office has today registered a reduction of Munters' share capital of SEK 31,250,000 through redemption of 25,000,000 redemption shares. Further, an increase of the company's share capital of SEK 37,500,000 is registered following a bonus issue. The increase of the share capital is transferred from the non-restricted equity. No new shares are issued in connection with the bonus issue.

Following these transactions Munters has a total of 75,000,000 shares and the company's share capital amounts to SEK 131,250,000.

The redemption procedure means that SEK 492,887,000 will be distributed to Munters' shareholders, equivalent to SEK 20 per share that is not held by the company. Payment to the shareholders is expected to take place 15 June 2007.

Since 15 May 2007, the Munters share is traded in lots of 100 shares.
