Bank borrowings are secured by non-current tangible assets, investment property, inventories and future cash inflows into certain bank accounts.

The fulfilment of finance lease liabilities is substantially secured since the title to assets acquired under finance lease automatically reverts to the lessor in the event of default.

The carrying amounts of borrowings as at 31 December are denominated in following currencies:

#### 36. Competitors

Increasing living standard and population lead to growing demand for clothes in the EU and the USA. We expect that the demand for textile and knitted goods remains stable for the nearest future.

China, together with other Asian countries, are the world's largest exporters of clothes while the competition between European producers is intensifying. The crisis of the Southeast Asia and Russia made the competition between producers more intense and forced the European producers to move to cheaper countries, to develop technologies more rapidly, to create fashion and to look for modern solutions in the sphere of marketing.

The main competitors of Utenos trikotažas AB in the internal market are Lithuanian companies producing similar products, importers of foreign knitted goods, store chains trading in clothes and knitted goods, market dealers.

The competitors among the Lithuanian producers are Audimas AB, Sparta AB producing of outer knit-wear and under knit-wear items, Vilniaus aušra AB sewing outer garments and underwear, Lorita AB producing babies' clothes.

Presently, the competitors of Utenos trikotažas AB in Lithuania are not able to compete neither in the quality and quantity of their knitted goods nor in a wide spectrum of technological development. Besides, many companies are specializing in other production.

Denmark, China, Turkey, Poland take a leading position among countries importers.

The Company's main competitors producing and selling goods in the Western European countries are Estonia, Latvia, Portugal, Greece, Romania, Hungary, Turkey, China, Bulgaria. The strong points of the competitors are short production terms and low price.

The competitive advantages of Utenos trikotažas AB are as follows:

full production cycle/flexibility;

large production capacities;

subsidiary in Ukraine;

independence from external heating power sources (the Company's own boiler house);

ability to carry out orders within a short period of time, well-known name of the Company customers and consumers:
