

IT – INET Nordic – Updates to Nasdaq Nordic matching priority (28/17)

Based on Member request Nasdaq Nordic introduces a possibility to opt-out from having orders benefitting from the Internal Crossing priority during continuous trading.

A Member may opt-out on user level from having orders benefitting from the internal priority. If a Member opt-out, aggressive orders will be automatically matched in accordance with following priority; 1=price; 2=displayed; 3=time; hence no internal Member priority.

Protocol specifications

There are no updates to INET Nordic protocols due to this change. Latest INET Nordic protocol specifications are available at the Nasdaq Nordic Technical Information website, under [INET Nordic Protocol Specifications](#).

Documentation

Changes will be reflected in INET Nordic Market Model and Nasdaq Nordic Member Rules (“NMR”) effective June 7, 2017, published on [Rules and Regulations for the Nordic Markets](#).

Time schedule

- INET Test (NTF) – May 15, 2017
- INET MiFID II Test (M2) – May 15, 2017
- INET Production – June 7, 2017

How to order the service
