Change of strike price interval for Finnish Stock Options

As of Friday the 18th of January, 2008, OMX Derivatives Markets will change the strike price interval used for listing of new option series on the Finnish market. All automatically generated series will have the following strike price intervals.

New Exercise Interval

Exercise price (EUR)	Term ≤ 6 months	Term > 6 months
0 - 6	0.5	1
6 - 30	1	2
30 - 50	2	4
50 - 150	5	10
150 - 310	10	20
310 - 510	20	40
510 -	30	60

The change will make the interval for shorter terms compatible with the interval for longer terms as the latter is always twice the shorter interval.

Please see attached list on the next page for underlying shares which are currently within affected intervals. *No underlyings from group 1 in the quotation list are currently within affected intervals whereby no automatically generated series are affected initially.*
