

October 2009

Management commentary to Stock Exchange about Q3 2009 results

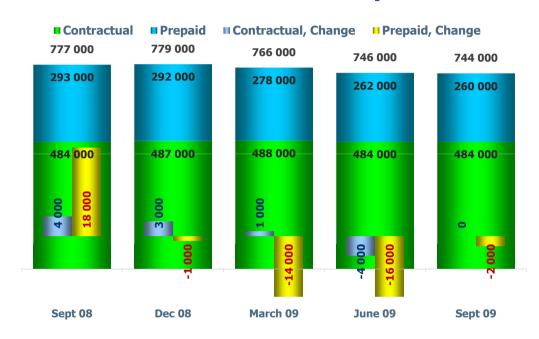

The Group's sales revenues in the third quarter were primarily impacted by regulations (European Union regulations applied on the mobile sector) and the economic downturn (reduction of sales of goods and changes in consumer behavior). Due to the efficiency plans in all subsidiaries the decrease in FRITDA is smaller than in Sales and EBITDA margin has increased year-to-year.

EMT's market position

EMT's estimated market share (by number of active SIM-cards) was 47%
