

Stock Exchange Notification no 2 - 2010

February 16, 2010

Interim Statement

In accordance with the regulations for listed companies' submission of interim statements, Roblon A/S hereby submits the interim statement for the period November 1, 2009 to January 31, 2010 (3 months).

For the company as a whole, the turnover is as expected.

The activities described in the annual report for 2008/09 are being implemented for all business areas. There is a particularly strong focus on sales and marketing activities and on product development.

In the current situation with low activity and considerable uncertainty about the development in sales potential, the costs are kept at a low level.

The three business areas Industrial Fiber, Engineering and Lighting all follow the expectations.

As the first quarter has proved satisfactory, there is no reason to adjust expectations for turnover and earnings in 2009/10.

No events or transactions with a material effect on the company's financial position, as shown in the interim report, have occurred.

Yours faithfully
Roblon A/S

Niels Bach
Chairman of the Board
