Details of the offering

Following the capital increase, the issued share capital of KBC Group NV will amount to EUR 1,250,250,000, represented by 58,835,294 shares with no nominal value.

KBC, as well as certain core shareholders, have agreed to a six-month lock-up, subject to certain customary exceptions and the granting of a pledge in respect of certain financings.

Settlement is scheduled to occur on 13 December 2012.

Johan Thijs, KBC Group CEO commented on today’s announcement as follows: *“The issuance today was very well received in the market and we are happy with the success of the transaction. Just like with the successful covered bonds transaction a couple of weeks ago, we managed to do the book building in a very short period of time and noticed a healthy appetite from different types of institutional investors. Moreover, the new shares are issued at 21,25 EUR which represents a discount of only 9.5 % compared to the closing price of last Friday (23,47 EUR). This is a clear testimony of the trust institutional investors*

place in KBC's fundamentals and bank-insurance business model. It confirms our position among the best capitalised, most liquid and profitable European financial institutions."
