I – 2015 business

SOLUTIONS 30 reports 2015 consolidated, unaudited revenue at €125.1 million, up 12.2% versus 2014. Growth was largely organic and points to the dynamic pace of business built up by the Group in both the domestic French and international markets. In the fourth quarter alone, revenue surged 13% to €34 million.

At 29.3% of the total, international revenue stood at €36.7 million, an increase of 18.9% over 2014. The performance in Germany and the Benelux countries was particularly strong. Business was boosted at the end of the year as the contract with Hewlett Packard got under way in Spain.

Revenue in France increased to €88.4 million, up 9.6% compared with 2014. Driven by the fibre segment, business in the French market continued to benefit from growth in the telecoms sector in the context of the roll-out of high-speed Internet across the country. Note that the Group recorded non-recurring business at the end of fiscal 2014 in IT and POS terminals in the amount of approximately €1.5 million.
