The investments we have made in the past year have positioned Coastal to grow our business while continuing to deliver a level of customer service that cannot be matched by anyone in our industry. We were also excited to ship more glasses to the United States market this quarter than any other market we serve which we believe supports the belief that customers in the United States are receptive to the savings and convenience of our offering. We look forward to reporting continued progress in the coming quarters."

Coastal's risks and uncertainties are discussed in detail in the Company's Annual Information Form dated December 14, 2011, which is also available on SEDAR.

### <u>Transition to International Financial Reporting Standards</u>

Coastal adopted IFRS for the 2012 fiscal year as required by the CICA Accounting Standards Board. The financial statements, including the fiscal 2011 comparative figures are prepared in accordance with IFRS and IAS 34, Interim Financial Reporting. Reconciliations prepared in accordance with IFRS 1, First-time Adoption of International Financial Reporting Standards are provided in note 15 of the unaudited condensed consolidated interim financial statements. The transition to IFRS did not result in a material impact on the Coastal's business functions or activities.

Coastal's significant accounting policies under IFRS are summarized in note 3 of the unaudited condensed consolidated interim financial statements and are substantively unchanged from the policies under previous CGAAP.

### Supplemental Non-IFRS Measures

Adjusted EBITDA is a non-IFRS measure that does not have any standardized meaning prescribed by IFRS and is therefore unlikely to be comparable to similar measures presented by other companies. Adjusted EBITDA should be considered in addition to, and not as a substitute for, net earnings, cash flows and other measures of financial performance and liquidity reported in accordance with IFRS.

Adjusted EBITDA is a measure we believe is useful in assessing performance and highlighting trends on an overall basis. Adjusted EBITDA differs from the most comparable IFRS measure, net earnings, primarily because it does not include interest, income taxes, amortization, depreciation, restructuring cost and share-based compensation expense.

New orders, reorders, shipped orders and active customers are non-IFRS measures that do not have a standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies. New orders are orders shipped to new customers, net of returns. Reorders are orders shipped to returning customers, net of returns.
