In accordance with Section 3-9 of the Norwegian Accounting Act, the DnB NOR Group prepares consolidated accounts in accordance with IFRS principles, including IAS 34 - Interim Financial Reporting. A description of the accounting principles applied by the Group is found in the annual report for 2008, note 1. In additon, change in principle is described in this document, Section 1 page 13.

Statements regarding DnB NOR's relative market positions are, unless otherwise specified, based on internal DnB NOR analyses.

Section 1 DnB NOR - an overview

Financial highlights

First quarter 2009

- Pre-tax operating profits before write-downs were NOK 6.1 billion (1.5)
- Profit for the period was NOK 2.9 billion (1.1)
- Return on equity was 15.8 per cent (5.7)
- Earnings per share 2.32 (0.79)
- Cost/income ratio was 43.6 per cent (74.3)
- The core capital ratio, including 50 per cent of interim profits, was 7.0 per cent (7.0)

Comparable figures for 2008 in parentheses.

DnB NOR - Norway's leading financial services group

| D | nB NOR Group | As at | 31 March 2009 |
|---|--------------------------|-------|---------------|
| • | Total combined assets | NOK | 2 092 billion |

DnB NOR's strategy

The escalating financial market turmoil through 2008 had a profound impact on the macro-economic assumptions underlying DnB NOR's growth strategy for the period 2008-2010, presented in the autumn of 2007. Nevertheless, the Group's long-term ambitions remain unchanged, though they have been toned down somewhat in the short term, not least internationally.

Business idea

DnB NOR will be customers' best financial partner and will meet their needs for financial solutions.

DnB NOR's strengths are a local presence and a full range of services. DnB NOR has a unique platform in the Norwegian market:

- a high market share in all segments
- the largest customer base
- the most extensive distribution network

Common value base and culture

Team spirit, simplicity, value creation

DnB NOR's shared values describe what should distinguish the organisation and work processes both internally and in relation to customers.

Strategy

In 2009, the Group will give priority to ensuring the quality of operations and reducing the level of write-downs in consequence of the ongoing international recession. Still, there will be scope for a high level of activity within certain product and market areas, especially in the retail market and among small and medium-sized enterprises. Parallel to this, high priority will be given to implementing the streamlining measures defined in the Group's cost programme.

Growth in home market

DnB NOR will develop and strengthen longterm relations with sound customers. New products and services, effective distribution and increased cross-sales in Norway will be priority areas.

- introduce new products and services
- strengthen distribution and market positions
- utilise the full range of products

Cost efficiency in Norway

Cost efficiency will be given high priority:

- optimise customer processes and distribution
- streamline IT
- · reorganise operational processes

International growth

Previously communicated ambitions regarding international growth in defined industries and close geographic areas will continue to be part of the Group's long-term strategy. In the short-term, however, the international growth ambitions will be toned down.

DnB NOR will give priority to selected industries built on core competencies:

- shipping
- energy
- seafood

Financial targets

DnB NOR gives priority to long-term value creation for shareholders and seeks to achieve a return on equity and share price increases that are competitive relative to the Group's Nordic peers. This goal has been reflected in financial target figures for the Group.

In light of the weakened market situation resulting from the global financial crisis, emphasis is placed on the following target figures:

- A Tier 1 capital ratio above 8 per cent by year-end 2010
- NOK 20 billion in pre-tax operating profits before write-downs in 2010
- Effect of cost programme of NOK 2.0 billion per annum as of end 2012

DnB NOR aims to distribute up to 50 per cent of annual profits as dividends, provided that capital adequacy remains at a satisfactory level.

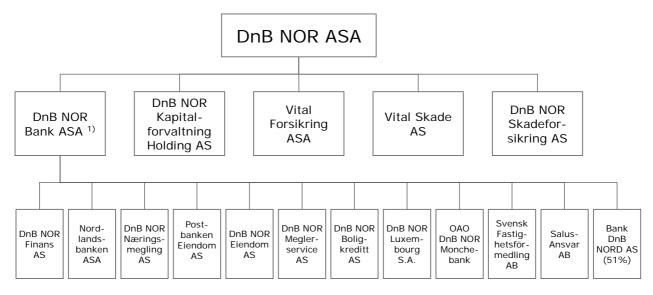

Legal structure

In accordance with the requirements of the Norwegian regulatory authorities, the banking, asset management and life insurance activities of the DnB NOR Group are organised in separate limited companies under the holding company DnB NOR ASA. Banking activities are organised in DnB NOR Bank ASA and its subsidiaries. All asset management activities are organised under a common holding company, DnB NOR Kapitalforvaltning Holding AS. Vital Forsikring ASA offers life insurance and pension saving products, both products with guaranteed returns and products with a choice of investment profile. Vital Forsikring ASA offers life insurance and pension saving products, both products with guaranteed returns and products with a choice of investment profile. Until the end of 2008 Vital Skade AS offered non-life insurance products as an agent. From 1 January 2009 non-life insurance is offered by the new company DnB NOR Skadeforsikring AS. The new company offers non-life insurance products as part of a total product package for retail customers and small and medium-sized companies and will take over the insurance policies that are currently under Vital Skade. The portfolios will be transferred from Vital Skade in accordance with policy-renewals during 2009.

The chart below shows the legal structure of the DnB NOR Group.

DnB NOR Group - legal structure at end-March 2009

1) Major subsidiaries only. Ownership 100 per cent unless otherwise indicated

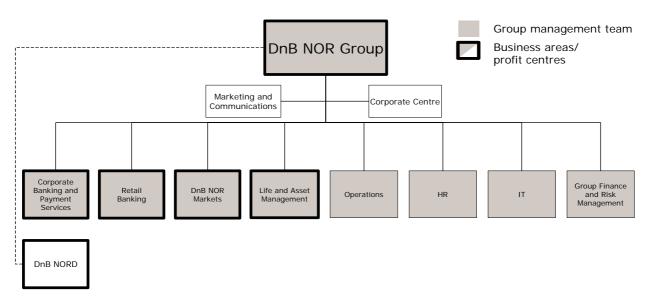

Group business structure

The activities in DnB NOR was in the first quarter of 2009 organised in the business areas Corporate Banking and Payment Services, Retail Banking, DnB NOR Markets and Life and Asset Management. The business areas operate as independent profit centres and have responsibility for serving all of the Group's customers and for the total range of products. DnB NORD is regarded as a separate profit centre.

Operational tasks and group services are carried out by the Group's staff and support units, which provide infrastructure and cost efficient services to the business areas. In addition, they perform functions for governing bodies and group management. The business areas have the opportunity to influence staff and support units in the Group by changing their demand patterns and levels of ambition.

The operational structure of DnB NOR deviates from its legal structure as activities in subsidiaries fall within the business area relevant to the company's primary operations. Activities in some subsidiaries are divided between the relevant business areas. This applies, for example, to Nordlandsbanken, where corporate market activities are included in Corporate Banking and Payment Services while retail market activities are included in Retail Banking.

DnB NOR Group - organisation chart at end-March 2009 1)

1) Reporting structure.

In February 2009, DnB NOR initiated a process to review the organisational structure of the Group's operations in the Norwegian regional network. The aim of the project is to merge activities in Retail Banking and in the regional divisions Coast and East in Corporate Banking and Payment Services into one business area, Retail Norway, in the course of 2009. The reorganisation will enable the Group to utilise its wide range of products and services and expert skills in an optimal manner by coordinating activities in local markets and thus strengthen relations to customers in all Norwegian market segments. The reorganisation will also make it possible to capitalise on the size of the Group by coordinating and streamlining operations.

¹⁾ Including the effect of the 9 736 376 shares issued on 31 March 2005 in connection with the subscription rights programme for employees in the former DnB Group.

Share price development - 1 April 2008 to 23 April 2009

²⁾ RARORAC (Risk-Adjusted Return On Risk-Adjusted Capital) is defined as risk-adjusted profits relative to the risk-adjusted capital requirement. Risk-adjusted profits indicate the level of profits in a normalised situation.

³⁾ RORAC (Return On Risk-Adjusted Capital) is defined as profits for the period relative to the risk-adjusted capital requirement. Profits for the period exclude profits attributable to minority interests and are adjusted for the period's change in fair value recognised directly in equity and for the difference between recorded interest on average equity and interest on risk-adjusted capital.

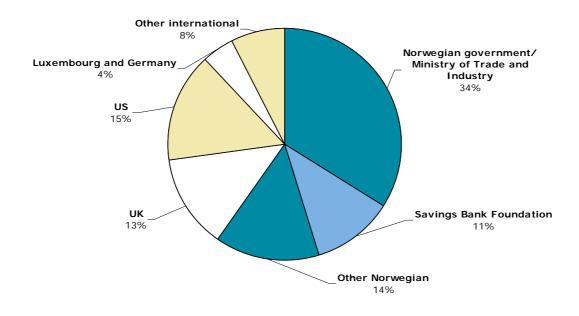

⁴⁾ Closing price at end of period relative to annualised earnings per share.

Accounting principles etc.

Accounting principles

The first quarter accounts 2009 have been prepared according to IAS 34 Interim Financial Reporting. A description of the accounting principles applied by the Group in preparing the accounts is found in the annual report for 2008. The annual and interim accounts are prepared according to IFRS principles as approved by the EU. New or amended standards which have an impact on the accounts of the DnB NOR Group as from 1 January 2009 are described below.

IAS 1 – Presentation of Financial Statements (revised)

The Group has applied the revised IAS 1 with effect from 1 January 2009. The implementation has resulted in changes in the Group's statement of changes in equity and income statement. According to the revised standard, the statement of changes in equity shall only show details on transactions with owners. Other transactions recognised directly in equity should be presented on a separate line in the statement of changes in equity. In the income statement, these transactions should be shown in a statement of comprehensive income according to IAS 1 under the income statement.

Important accounting estimates and discretionary assessments

When preparing the consolidated accounts, management makes estimates and discretionary assessments and prepares assumptions that influence the effect of the accounting principles applied and thus the recorded values of assets and liabilities, income and expenses. A more detailed account of important estimates and assumptions is presented in note 2 Important accounting estimates and discretionary assessments in the annual report for 2008.

When calculating the fair value of margin-based loans in Norwegian kroner, the registered portfolio margin is measured against an estimated margin requirement at the end of the period. The difference between the estimated margin requirement and the registered margin represents a change in fair value, which is calculated by discounting the estimated margin loss. The discount period represents the expected time to the repricing of the portfolio. With effect from the first quarter of 2009, the margin requirement is calculated based on the bank's product profitability system. The margin requirement represents the bank's actual marginal funding costs, estimated operating expenses and risk costs (normalised losses and the cost of capital) based on the Group's total risk model.

Section 2

Financial results DnB NOR Group

After the release of the preliminary and unaudited accounts for the fourth quarter of 2008, some adjustments were made in the DnB NOR Group's figures for 2008. Figures for the fourth quarter of 2008 have been adjusted accordingly in this document.

Net gains on FX and interest rate instruments

excluding guarantee commissions

Net gains on financial instruments - guarantee commissions

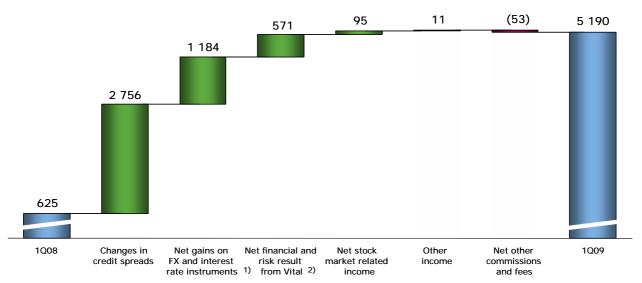

4. Net gains on FX and interest rate instruments

¹⁾ In this table items are classified according to main operational areas. Thus, net guarantee commissions, which according to IFRS are classified as "Net gains on financial instruments at fair value" in the income statement, are classified as "Commissions and fees". Stock market related commissions and fees are classified as "Stock market related income".

Changes in net other operating income

1) DnB NOR's risk classification system, where 1 represents the lowest risk and 10 the highest risk.

Capital adequacy

The DnB NOR Group follows the Basel II regulations for capital adequacy calculations. Valuation rules used in the statutory accounts form the basis for the consolidation, which is subject to special consolidation rules governed by the Consolidation Regulations.

¹⁾ Upon implementation of NRS 6A (IAS 19) in 2005, unrecognised actuarial gains/losses for pension commitments were charged to equity in the accounts. The Ministry of Finance established a transitional rule for the years 2005 to 2008 meant to reduce the negative effect when calculating capital adequacy.

Due to transitional rules, the minimum capital adequacy requirements for 2008 and 2009 cannot be reduced below 90 and 80 per cent respectively relative to the Basel I requirements.

²⁾ Perpetual subordinated loan capital securities can represent up to 15 per cent of core capital. The excess will qualify as perpetual supplementary capital.

As at 31 March 2009, calculations of capital adequacy included a total of NOK 783 million in subordinated loan capital in associated companies, in addition to subordinated loan capital in the balance sheets of the banking group and the DnB NOR Group.

⁴⁾ Primary capital and nominal amounts used in calculating risk-weighted volume deviate from figures in the DnB NOR Group's accounts, as associated companies which are assessed according to the equity method in the accounts, are assessed according to the gross method in capital adequacy calculations.

Basel II implementation - further progress

A major reduction in risk-weighted assets is expected upon full implementation of the IRB system. The IRB system is defined as the models, work processes, decision-making processes, control mechanisms, IT systems and internal guidelines and routines used to classify and quantify credit risk. Below is a time schedule for the implementation of the different reporting methods used for the Group's of portfolios.

Taxes

The DnB NOR Group's tax charge for the first quarter of 2009 was NOK 1 580 million, compared with NOK 170 million in the year-earlier period. The increase in estimated taxes mainly reflects taxes payable by Vital. Most losses on equities are non-deductible in the tax accounts, while gains on other investments in Vital are subject to taxation. Based on prevailing regulations, the total tax rate in Vital could be high in 2009.

Estimated taxes for the first quarter are based on an annual estimate for 2009 corresponding to an effective tax charge of 35 per cent. As the stock market normalises, the tax charge can be expected to decline. In the longer term, the Group expects the tax charge to return to an anticipated level of 23 per cent of pre-tax operating profits.

For definitions of selected key figures, see next page.

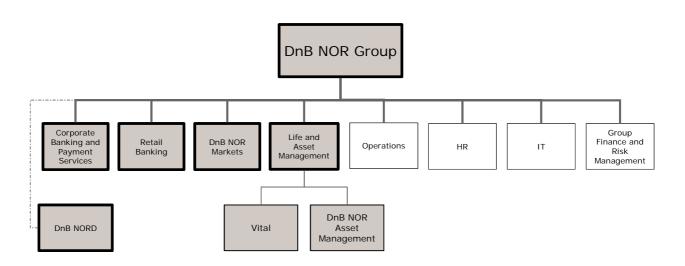

Definitions to key figures

- 1, 2, 3 Based on nominal values excluding lending to and deposits with credit institutions and impaired loans, measured against the 3-month money market rate.
- 5 Total expenses relative to total income. Expenses exclude allocations to employees.
- Profit for the period, excluding profit attributable to minority interests, adjusted for the period's change in fair value recognised in equity. Average equity is calculated on the basis of recorded equity excluding minority interests.
- RARORAC (Risk-Adjusted Return On Risk-Adjusted Capital) is defined as risk-adjusted profits relative to the risk-adjusted capital requirement. Risk-adjusted profits indicate the level of profits in a normalised situation. The risk-adjusted capital requirement is described in further detail in the chapter "Management in DnB NOR" in the DnB NOR Group's annual report for 2008.
- 8 RORAC (Return On Risk-Adjusted Capital) is defined as profits for the period relative to the risk-adjusted capital requirement. Profits for the period exclude profits attributable to minority interests and are adjusted for the period's change in fair value recognised directly in equity and for the difference between recorded interest on average equity and interest on risk-adjusted capital.
- 10 Profit for the period relative to average risk-weighted volume.
- 22 Total assets under management for customers in Life and Asset Management.
- 23 Total assets and customer assets under management.
- 25 Total deposits from customers, assets under management and equity-linked bonds.
- 29 Excluding discontinuing operations and profits attributable to minority interests. Holdings of own shares are not included in calculations of the number of shares.
- Closing price at end of period less closing price at beginning of period, including dividends reinvested in DnB NOR shares on the dividend payment date, relative to closing price at beginning of period.
- 33 Equity at end of period excluding minority interests relative to number of shares at end of period.
- 35 Closing price at end of period relative to annualised earnings per share.
- 36 Closing price at end of period relative to recorded equity at end of period.
- Number of shares multiplied by the closing share price at end of period.

Section 3

DnB NOR Group - business areas

Business areas - financial performance

The operational structure of DnB NOR in the first quarter of 2009 included four business areas, which are independent profit centres and carry responsibility for customer segments served by the Group and the products offered. The business areas are: Corporate Banking and Payment Services, Retail Banking, DnB NOR Markets and Life and Asset Management. In addition, DnB NORD is reported as a separate profit centre.

The income statement and balance sheet for the business areas have been prepared on the basis of internal financial reporting for the functional organisation of the DnB NOR Group into business areas. Figures for the business areas are based on DnB NOR's management model and the Group's accounting principles. The figures have been restated in accordance with the Group's current principles for allocating costs and capital between business areas and are based on a number of assumptions, estimates and discretionary distribution. Internal transfer rates used between the business areas are determined based on observable market rates, e.g. NIBOR. Additional costs relating to the Group's long-term funding are charged to the business areas. According to the Group's liquidity management policy, 90 per cent of lending is financed through stable deposits and long-term funding. The additional costs thus arising were charged to the business areas. In the management accounts, Corporate Banking and Payment Services and Retail Banking are measured based on the business areas' ordinary operations. Random IFRS effects are not taken into consideration.

Return on capital for the business areas are presented in the descriptions of each area in this section. Return on capital is measured as the business area's profits after taxes relative to average allocated capital. Capital is allocated to the business areas as part of the Group's financial planning process and corresponds to the areas' risk-adjusted capital requirement based on the risk involved in operations. The capital requirement is measured in accordance with DnB NOR's total risk model.

Internal pricing

DnB NOR's financial management model and operational organisation entail the sale of products and services between the business areas in the Group. The pricing of such intra-group transactions is regulated by internal agreements based on market terms.

Certain customers and transactions of major importance require extensive cooperation within the Group. To stimulate such cooperation, net income relating to some of these customers and transactions is recorded in the accounts of all relevant business areas. This refers primarily to income from customer trading in DnB NOR Markets. In the first quarter of 2009, such income totalled NOK 409 million. Double entries are eliminated in the group accounts.

Services provided by staff and support units will as far as possible be scaled and priced according to use. Joint expenses incurred by group staff units and other group expenditures that cannot be debited according to use, are charged to the business areas' accounts on the basis of special distribution formulas. Costs relating to the Group's equity transactions, including strategic investments, and direct shareholder-related expenses and costs concerning the Group's governing bodies are not charged to the business areas.

| Pre-tax operating profit | (409) | (415) | 0 | 0 | 37 | (528) | (371) | (943) |

The eliminations refer mainly to internal services from support units to business areas and between business areas. Further, intra-group transactions and gains and losses on transactions between companies in the Group are eliminated. The elimination of double entries primarily concerns net profits on customer business carried out in cooperation between DnB NOR Markets and other business areas and taken to income in both areas.

The Group Centre includes Operations, HR (Human Resources), IT, Group Finance and Risk Management, Marketing and Communications, Corporate Centre, the partially owned company Eksportfinans, investments in IT infrastructure and shareholder-related expenses. In addition, the Group Centre includes that part of the Group's equity that is not allocated to the business areas.

- 1) Based on nominal values and includes lending to and deposits from credit institutions.
- 2) Assets under management include total assets in Vital.
- 3) Total operating expenses relative to total income.
- 4) Deposits from customers relative to net lending to customers.
- 5) The return is calculated on the basis of internal measurement of risk-adjusted capital.
- 6) Includes 68 full-time positions in the Norwegian operations of Skandiabanken Bilfinans, which were acquired on 31 January 2008, and 52 full-time positions in the company's Swedish operations, which were acquired on 29 February 2008. Due to changes in the agreement with Norway Post, DnB NOR will take over approximately 170 full-time positions from Norway Post. Costs and corresponding head-count figures relating to these positions were included with effect from the first quarter of 2009.

Corporate Banking and Payment Services

Corporate Banking and Payment Services (CBP) serves Norwegian enterprises in all segments, Swedish medium-sized companies and large corporates. CBP also serves international businesses where DnB NOR has or can build a competitive advantage based on relationships, expertise or products, alone or in cooperation with partners.

CBP is organised in nine divisions:

- Nordic Corporate Division
- International Corporate and Institutions Division
- · Shipping, Offshore and Logistics division
- Regional Division East
- Regional Division Coast
- Sweden Division
- Telephone and Online Banking Market/Product
- Administration and Payment services
- Workout Division

And four subsidiaries:

- DnB NOR Finans
- Nordlandsbanken
- DnB NOR Næringsmegling
- DnB NOR Monchebank

Leif Teksum, group executive vice president, heads the business area.

Comments to the financial performance

- CBP recorded a 1.4 per cent increase in pre-tax operating profits from the year-earlier period. Pre-tax operating profits before write-downs decreased by 12.5 per cent compared with the fourth quarter of 2008, reflecting lower interest rate levels and a decline in interest income from allocated risk capital.
- Net interest income from ordinary operations was up NOK 720 million from the first quarter of 2008. Wider lending spreads and positive exchange rate effects helped boost income. Lending activity was affected by the financial turmoil, but higher exchange rates for USD and EUR contributed to a relatively strong increase in volumes of 26.8 per cent compared with the first quarter of 2008. Adjusted for exchange rate movements, lending volumes increased by 16.8 per cent during the same period. Deposit volumes increased by 5.0 per cent, adjusted for exchange rate movements. The weighted average combined spread increased by 0.20 percentage points from the first quarter of 2008, to 1.15 per cent in the first quarter of 2009. Compared with the previous quarter, the spread increased by 0.13 percentage points.
- Net other operating income increased by NOK 45 million in the first quarter of 2009 compared with the year-earlier period. There was an increase in income from guarantees, financial instruments, syndication and corporate finance, while income from custody and real estate broking declined compared with the corresponding period of 2008.
- Operating expenses increased by NOK 111 million in the first quarter of 2009 compared with the corresponding period of 2008. International expansion and growth within CBP's priority areas during the first part of 2008 resulted in rising staff numbers and increased investments. Growth in operational leasing gave a significant increase in depreciation costs.
- Net write-downs on loans and guarantees decreased from the fourth quarter of 2008 and totalled NOK 569 million in the first quarter of 2009.
- Average loans and guarantees to customers increased by NOK 9 billion in the first quarter of 2009 compared with the fourth quarter of 2008, and average deposits were up NOK 3 billion in the same period. Adjusted for exchange rate movements, average loans and guarantees decreased by NOK 11 billion and deposits decreased by NOK 5 billion. Furthermore, commercial paper and bonds for a total value of NOK 59 billion were issued in the first quarter of 2009, of which approximately NOK 30 billion represented bonds for DnB NOR Boligkreditt. Due to market conditions underwriting and consequently syndication activity has been brought to a halt.

Employees

At end-March 2009, the business area had a staff of 2 495 full-time positions, with 1 800 in Norway, including 648 in subsidiaries, and 695 in international units.

Business profile

- The Shipping, Offshore and Logistics Division provides commercial and investment banking services to high-quality Norwegian and international shipping, offshore and logistics clients.
- The division aims to achieve satisfactory growth in risk-adjusted profitability by being one of the leading international shipping banks.
- The division aims to be the preferred strategic discussion partner for clients.
- The division focuses on competence development to further improve the quality and range of client services.

Portfolio

- DnB NOR has a diversified portfolio in the maritime sector, as shown above.
- Clients within the dry bulk segment are mainly well-established operators with good contract coverage.
- The container portfolio is characterised by companies that are among the major operators and tonnage providers.
- Within the crude tanker portfolio, clients are mainly leading international tanker owners.
- Lessons are learned from previous downturns and internal credit analysis has been based on low rate estimates.
- DnB NOR is proactively addressing the downturn and financial covenants are actively used in risk management.

¹⁾ Allocated risk-adjusted capital

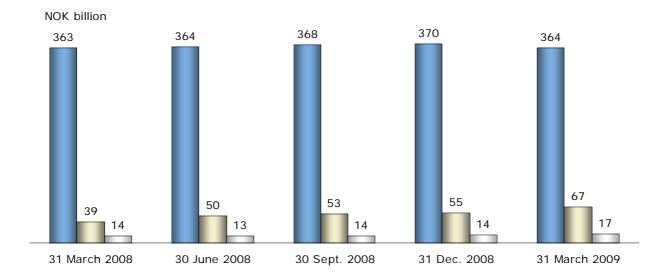

Comments to the financial performance in the first quarter of 2009

- Retail Banking recorded pre-tax operating profit of NOK 625 million in the first quarter of 2009, down NOK 321 million from the year-earlier period. Return on allocated capital was reduced from 39.1 per cent to 24.0 per cent.
- Net interest income was NOK 1 926 million, up NOK 31 million from the first quarter of 2008.
 The weighted interest rate margin, defined as total margin income on loans and deposits
 relative to average loans and deposits, was 1.14 per cent in the first quarter of 2009, an
 increase of 0.13 percentage points from the year-earlier period.
- Average lending volume increased by NOK 28.3 billion or 6.4 per cent to NOK 471.5 billion, referring primarily to well-secured housing loans. Average customer deposits rose by NOK 20.0 billion or 8.8 per cent, and the ratio of deposit to net lending improved by 1.2 percentage points to 52.7 per cent.
- Net other operating income decreased by NOK 110 million to NOK 676 million. Turmoil in financial markets resulted in reduced income from the sale of funds and life and pension insurance. Charges on all loyalty programmes in DnB NOR were removed on 1 May 2008 and this caused a reduction in fee income close to NOK 100 million from the first quarter of 2008.
- Operating expenses rose by NOK 152 million to NOK 1 824 million. The cost increase was mainly related to changes in the agreement with Norway Post, IT development and the establishment of DnB NOR Skadeforsikring. The cost/income ratio increased from 62.4 to 70.1 per cent.
- Net write-downs on loans increased by NOK 91 million. On an annual basis, write-downs represented 0.13 per cent of average lending in the first quarter of 2009, compared with 0.06 per cent in the year-earlier period.
- The volume of net non-performing and impaired commitments increased from NOK 1.8 billion in average in the first quarter of 2008 to NOK 2.3 billion, representing 0.4 per cent of lending volumes in the first quarter of 2008 and 0.5 per cent in the corresponding period of 2009.

²⁾ Average balances. Based on nominal values.

Development in spreads

- Over the last few years, lending spreads have been inadequate to cover all costs relating to operations, funding and risk.
- Spreads relative to the internal transfer rate (equals the 3-month money market rate) do not give a complete picture of developments. The graphs showing developments in spreads, see page 20 and on the next page, do not reflect the effect of higher costs for long-term funding or the effects relating to DnB NOR Boligkreditt.
- The spreads in the first quarter of 2009 were influenced by a major fall in interest rates during a short period of time. This gave a temporary increase in lending spreads while deposit spreads decreased. The deposit and lending spreads show a diverging trend, which is a logical development and must be viewed in light of intensifying competition for deposits and changes in the risk scenario.

Income from product sales

NOK million

1) Real estate broking includes income in Svensk Fastighetsförmedling in Sweden.

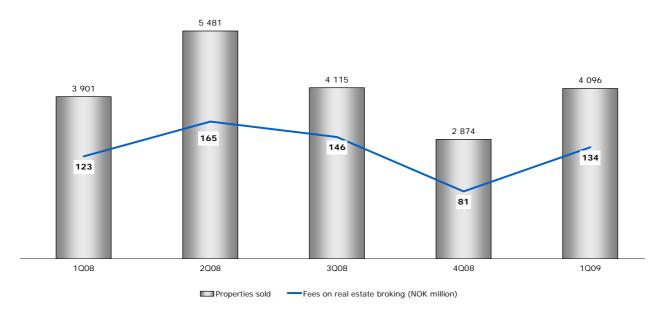

Residential real estate broking

DnB NOR's real estate broking activities are coordinated by DnB NOR Eiendom AS, a market leader within the real estate broking business in Norway. DnB NOR Eiendom had 95 outlets located in DnB NOR branches at the end of March 2009. Postbanken Eiendom has established 28 real estate broking customer service centres.

After the acquisition of Svensk Fastighetsförmedling DnB NOR became the largest provider of real estate brokerage services in the Nordic region, and the introduction of housing loans for Swedish bank customers is an important step to build a customer portfolio and a long-term income base in the Swedish market. Svensk Fastighetsförmedling had 209 outlets in Sweden at end-March.

In addition to fee income, real estate broking operations generate business in the form of residential mortgages and savings.

Consumer finance

- DnB NOR's card-based services and consumer finance activities are coordinated in DnB NOR Kort, an entity within DnB NOR Bank ASA.
- DnB NOR Kort's lending volume increased to NOK 13 314 million, from NOK 11 536 million at end-March 2008.
- Consumer finance activities generated healthy profits in the first quarter of 2009.
- DnB NOR Kort is Norway's leading card issuer in terms of number of cards issued and lending volume. As at 31 March 2009, the entity had issued more than 1.6 million credit and charge cards.

Management's estimates.

Non-life insurance

DnB NOR Skadeforsikring AS was established in the autumn of 2008, offering non-life insurance products, mainly to the private lines of business (home, car, travel etc.). The company will become insurer for the portfolio established by the agent company Vital Skade AS, and the portfolio is transferred in accordance with policy-renewals during 2009.

DnB NOR Skadeforsikring AS provides non-life insurance products within the Group's distribution network and customer base, with products accommodated to the bank assurance concept. High level of service in claims handling and advisory, are significant components in creating customer loyalty. Furthermore, the company aims to achieve sufficient profitability with a long-term combined ratio below 100 per cent.

Written premium generated in DnB NOR Skadeforsikring AS in the first quarter of 2009 amounted to NOK 386 million.

Customers/markets

- Serving more than 2.3 million private individuals
- 422 000 housing loan customers
- 797 000 subscribe to DnB NOR loyalty programmes and 454 000 to Postbanken Leve
- 1.5 million clients use the Group's Internet banks
- dnbnor.no and postbanken.no are Norway's largest Internet banks
- 15.8 million payment transactions were carried out through the Internet banks in the first quarter of 2009
- 1.1 million customers have agreed to receive notifications from the bank, such as account statements, via e-mail
- Brand names
 - DnB NOR
 - Postbanken
 - Cresco
 - Nordlandsbanken
 - DnB NOR Skadeforsikring

Organisation and distribution

Retail Banking offers a wide range of financial products and services through Norway's largest distribution network, in terms of number of contact points with customers. The major distribution channels are:

- Branch offices: 167 DnB NOR, 41 Postbanken and 16 Nordlandsbanken
- The postal network: 247 offices and 1 205 in-store postal outlets
- In-store banking outlets: 883
- · Internet and telephone
- Investment Advisory Services: 35

DnB NOR Bank ASA and Norway Post have an agreement relating to the distribution of financial services through the postal network. The agreement is mainly based on transaction-specific prices and a common aim to increase the number of financial services distributed through the postal network, and will remain in force until December 2012.

Postbanken and Norway Post have established joint service solutions provided through in-store postal outlets where customers can carry out everyday banking transactions in their local supermarkets. 1.1 million payment transactions were carried out through these channels in the first quarter of 2009. Norway Post has entered into an agreement with DnB NOR for the purchase and installation of up to 2 500 payment terminals for use in post offices and in-store postal outlets.

The distribution of standard banking services through in-store banking outlets is based on an agreement between DnB NOR and NorgesGruppen. 183 000 payment transactions were carried out through these channels in the first quarter of 2009.

News

- DnB NOR will in the course of 2009 establish Retail Norway, in order to strengthen the home market position. Retail Banking and divisions Cost and East in Corporate Banking and Payment Services (CBP) will be merged to form Retail Norway.
- DnB NOR and Telenor have made it possible to use BankID on mobile phones when making payments through the Internet bank.
- DnB NOR will soon be able to offer paper-free, fully electronic loan processes where
 customers sign the agreements using BankID. The aim is to streamline the loan process and
 make it simpler and better both for customers and advisers. By 2012, 50 per cent of Retail
 Banking customers will start the loan process in the Internet Bank and sign the loan
 agreement using BankID.
- DnB NOR is responsible for all banking services at Oslo Airport Gardermoen from 1 January 2009. The agreement will remain in force for five years.
- From 1 January 2009, the Group launched its own non-life insurance company, DnB NOR Skadeforsikring, that handles the entire value chain.

Employees

At the end of March 2008, Retail Banking staff represented 3 979 full-time positions, including SalusAnsvar, Svensk Fastighetsförmedling, Sweden Retail and approximately 170 advisers who will be transferred from Norway Post from May 2009.

In 2006 DnB NOR started a certification program for all advisers in Retail Banking, to ensure a high level of professional expertise and advisory services of a high ethical standard. 824 advisors were authorised in 2008, and 568 have started the program and will be authorised during 2009. From 2009 a national authorisation program for financial advisors is established, and this program is replacing DnB NOR's internal program.

Cooperation with other group entities

Cross selling of products is one of the major strengths of the DnB NOR Group. Through its distribution network Retail Banking offers:

- Asset management services, Life and pension insurance (Life and Asset Management)
- Financial instruments (DnB NOR Markets)
- Car loans (DnB NOR Finans)

Total lending includes all credits extended to Norwegian customers by domestic commercial and savings banks, state banks, insurance companies and finance companies.

Domestic commercial and savings banks.

DnB NOR Markets

DnB NOR Markets is Norway's largest provider of a wide range of securities and investment banking services. DnB NOR Markets comprises the following units:

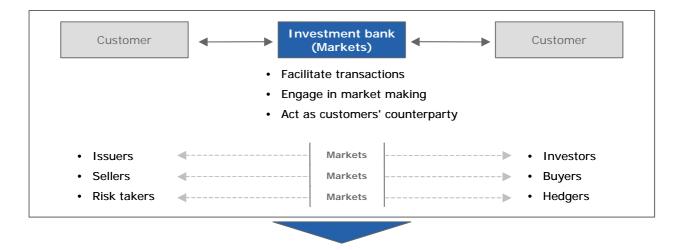

- FX/Rates/Commodities/Credit
- Equities
- Corporate Finance
- Securities Services

The Group Treasury is organised within DnB NOR Markets though profits and losses for the unit are not recorded under this business area. Ottar Ertzeid, group executive vice president, is head of DnB NOR Markets.

DnB NOR Markets aims to be the leading investment bank for Norwegian and Norwegian-related customers, as well as international clients requiring services relating to Norway and the Norwegian krone. Clients outside Norway are served through the Group's international units, especially shipping and energy clients and Norwegian companies' international entities.

DnB NOR Markets is a full-service investment bank with leading market positions in Norway. The business area has:

- A diversified business/revenues mix (products and customers)
- A sound mix of customer and trading activities
- Cost and capital-efficient operations

Through its diversified business and products, DnB NOR Markets is well positioned to capitalise on the Group's customer base and interest rate and currency positions.

Comments to the financial performance in the first quarter of 2009

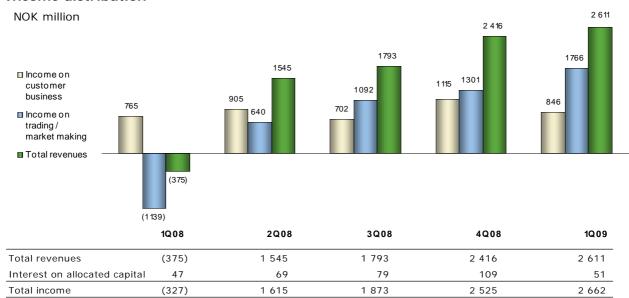

- DnB NOR Markets achieved record level profits in the first quarter of 2009 due to excellent
 market conditions and sound performance within foreign exchange, interest rate products
 and bonds. Total revenues increased to NOK 2 662 million in the first quarter of 2009, from
 negative revenues of NOK 327 million in the year-earlier period.
- Income from customer business was NOK 846 million, up 81 million from the year-earlier period. Risk management and related products remain high on clients' agendas. Customer-related income from interest rate products and the arrangement of corporate bond issues compensated for reduced income from equity-related operations.
- Income from market making/trading totalled NOK 1 766 million, up NOK 2 905 million compared with the first quarter of 2008. There was an increase in income from trading in foreign exchange and interest rate instruments. High income from market making reflects high volatility and wider differences than normal between bid and ask prices, Markets' diversified business with regard to products and customers as well as successful trading in Norwegian kroner products.
- With effect from 1 July 2008, DnB NOR availed itself of the opportunity to reclassify a bond portfolio of NOK 88 billion from a trading portfolio to held-to-maturity investments.
 Amortisation of write-downs for previous periods represented NOK 213 million in the first quarter of 2009. No credit losses are expected in the portfolio.

Products and services

- Currency, interest rate and commodity derivatives.
- Securities and other investment products.
- Debt and equity financing in capital markets, as well as merger and acquisition and other advisory and corporate finance services.
- Custodial and other securities services.

Distribution and cooperation with other entities

Maintaining a broad distribution network and effective cooperation with other business areas within the Group, such as Corporate Banking and Payment Services and Retail Banking, are key priorities for DnB NOR Markets. Customers are served through:

- Central units located in Oslo.
- International offices (Stockholm, London, New York, Houston, Singapore and Shanghai) and 13 regional offices in Norway.
- The Internet and other electronic channels.
- The branch in Shanghai was granted a licence to engage in customer trading in bunker and freight derivatives in the first guarter of 2009.
- DnB NOR Markets introduced currency trading on the multibank portal FXAII and completed the first CO₂ emission rights transactions.
- DnB NOR introduced a new system for security finance during the quarter.

Customers and market shares

- In spite of intensifying competition, DnB NOR Markets maintained its leading market position in Norway within foreign exchange and interest rate activities and was also manager for the greatest number of Norwegian kroner bond and commercial paper issues in NOK in the domestic market in the first quarter of 2009. (Source: Stamdata, Bloomberg and DnB NOR Markets)
- The second largest brokerage house on Oslo Børs with respect to equities trading in the secondary market in the first quarter of 2009.
- The largest brokerage house for derivatives related to customer trading in equity derivatives on Oslo Børs, with a market share of 72.6 per cent in the first quarter of 2009. (Source: Oslo Børs).
- Leading within domestic securities services. (Source: Norwegian Central Securities Depository)
- 54.2 per cent of limited companies use DnB NOR Markets as registrar in the Norwegian Central Securities Depository. (Source: Norwegian Central Securities Depository)

Employees

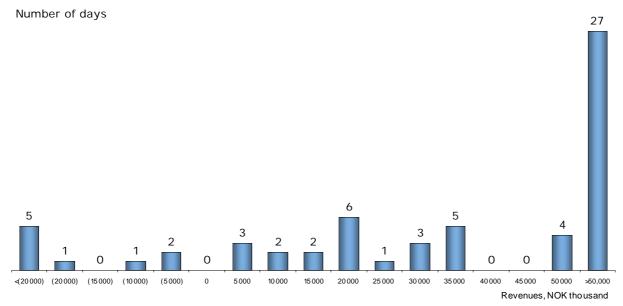

DnB NOR Markets staff located in offices in Norway and abroad represents 656 full-time positions.

Risk profile

DnB NOR Markets has a moderate risk profile. Customer activities represent the main business. Trading activities support customer activities with products and prices, with focus on Norwegian kroner products.

Value-at-Risk

Market risk arises as a consequence of open positions in foreign exchange, interest rates and equities. The risk is linked to variations in financial results due to fluctuations in market prices or exchange rates. Value-at-Risk increased in the first quarter of 2009 compared with the year-earlier period due to higher volatility in interest rates and currency prices.

Value-at-Risk 1)

| | 31 March 2009 | 31 March 2009 First quarter 2009 | | |
|---------------------------------------|---------------|----------------------------------|---------|---------|
| Amounts in NOK thousand | Actual | Average | Maximum | Minimum |
| Currency risk | 33 660 | 46 639 | 66 610 | 32 120 |

| Diversification effects ²⁾ | (20 640) | (32 860) | | |
| Total | 61 258 | 79 609 | | |

¹⁾ Value-at-Risk is the maximum loss that could be incurred on trading positions from one day to the next at a 99 per cent confidence level.

²⁾ Diversification effects refer to currency and interest rate risk only.

Interest rate sensitivity

The value of financial investments recorded on and off the balance sheet is affected by interest rate movements. The table below shows potential losses for DnB NOR resulting from parallel one percentage point changes in all interest rates. The calculations are based on a hypothetical situation where interest rate movements in all currencies are unfavourable for DnB NOR relative to the Group's positions. Also, all interest rate movements within the same interval are assumed to be unfavourable for the Group. The calculations are based on the Group's positions as at 31 March 2009 and market rates at the same date.

Life and Asset Management

Operations in Vital Forsikring ASA and DnB NOR Kapitalforvaltning Holding AS, both with subsidiaries, form one business area, "Life and Asset Management" headed by Tom Rathke, managing director of Vital Forsikring. The merger of DnB NOR Asset Management and Vital into one business area will strengthen initiatives related to long-term savings across the Group.

Life and Asset Management is responsible for life insurance, pension savings and asset management operations and aspires to be the most attractive provider of these services in the Norwegian market. An important instrument in achieving this position is to develop a customeroriented and cost-effective organisation with strong distribution power. Life and Asset Management will focus on profitable growth while ensuring competitive returns for the owner and customers.

Comments to the financial performance in the first quarter of 2009

Life and Asset Management recorded pre-tax operating profits of NOK 290 million in the first quarter of 2009, which represented an increase of NOK 628 million from the year-earlier period. Vital accounted for NOK 223 million and DnB NOR Asset Management for NOK 67 million, including interest on allocated capital. Allocated capital is lower than the companies' recorded equity. Profits of NOK 232 million and NOK 70 million, respectively, were recorded for Vital and DnB NOR Asset Management in the first quarter accounts. Descriptions of the financial performance of Vital and DnB NOR Asset Management are divided into two separate sections below.

²⁾ The return is calculated on the basis of internal measurement of risk-adjusted capital.

Vital

Vital offers group pension schemes to businesses and the public sector, the most important products being defined-benefit and defined-contribution occupational pension schemes. Vital also offers employers' liability insurance to the corporate market. In the retail market, long-term savings alternatives are offered in the form of individual savings products with guaranteed rates of return and products with a choice of investment profile.

Vital comprises Vital Forsikring ASA including subsidiaries. Vital Forsikring provides both products with guaranteed returns and products with a choice of investment profile. Tom Rathke is managing director of Vital Forsikring and group executive vice president in DnB NOR.

Vital aims to be Norway's strongest provider of pension savings. Vital seeks continued growth within the company's business segments and aims to deliver competitive results to its policyholders and owner. Devoting further efforts to improving cost efficiency, providing top-quality advisory services, maintaining high levels of service and customer relationship management exploiting the DnB NOR Group distribution network and customer base, and serving as an attractive entry portal for customers into the DnB NOR Group will be instrumental in reaching these targets.

Financial results

Vital Forsikring ASA including subsidiaries is fully consolidated in the DnB NOR Group's accounts.

New regulations were introduced for the life insurance industry in Norway as from 1 January 2008. The accounts for Vital for 2008 have been adapted to the new regulations. Figures for previous periods have not been restated.

¹⁾ See table below. For developments in the asset mix and return on assets from products with guaranteed returns, see tables on pages 77 and 73.

Note 1–4: see page 75 for a table that specifies Vital's various profit and loss items included in the DnB NOR Group's income statement.

During 2007, Vital increased reserves by NOK 4.4 billion to reflect higher life expectancy.

Comments to the financial performance in the first quarter of 2009

- Pre-tax operating profits totalled NOK 232 million, compared with an operating loss of NOK 361 million in the first quarter of 2008.
- Based on a tax forecast for 2009, a tax charge of 93 per cent has been estimated, corresponding to NOK 216 million.
- The value-adjusted and recorded return in the common portfolio was 0.7 per cent.
- Properties were written down by NOK 276 million.
- PE investments were written down by NOK 260 million. Vital's PE investments totalled NOK 2.0 billion at end-March 2009.
- The risk result was NOK 84 million, down from NOK 111 million in the year-earlier period.
- There was a positive administration result for products with a guaranteed rate of return, while it was negative for unit linked products.
- Net inflow of transfers in the public sector of NOK 710 million.
- Total assets were NOK 223.1 billion, down from NOK 224.1 billion at year-end 2008.
- Satisfactory solvency position, with total solvency capital of NOK 16.7 billion.
- The capital adequacy ratio was 12.4 per cent and the solvency margin capital was 62 per cent above the minimum requirement.

How to deliver the guaranteed rate of return

Conditions

- Based on asset allocation in the common portfolio as at 31 March 2009
- 1-year horizon. Return as from 2Q2009 to 2Q2010.
- Bond yield equalling 5-year swap rate
- Money market rate equalling 6-month NIBOR
- Share return equalling 5-year swap rate plus 3.5 per cent risk premium
- Yield on held-to-maturity bonds of 4.7 per cent
- Property return of 5.4 per cent

Refers to the common portfolio as from 1 January 2008. Figures prior to 1 January 2008 refer to the total return for Vital. Returns are calculated on a quarterly basis and there may been differences to the full year figures.
 Excluding changes in value of commercial paper and bonds held to maturity.
 Including changes in unrealised gains on commercial paper and bonds held to maturity.
 Excluding changes in unrealised gains on financial instruments.

For the composition of solvency capital, see table on page 79.
 The return is calculated on the basis of internal measurement of risk-adjusted capital.

The figures are annualised.

Products

- Group pension schemes to businesses, adapted to customer needs for defined-benefit and defined-contribution schemes. In addition, Vital offers employer's liability insurance in the corporate market.
- Long-term savings alternatives in the form of individual pension agreements and annuities in the retail market.
- Products are offered with guaranteed returns or with a choice of investment profile.
- Risk products in both the corporate and individual markets.
- Savings products from other units in the DnB NOR Group, including mutual funds from DnB NOR Asset Management and equity-linked bonds from DnB NOR Markets.

Organisation and markets

The business area is represented in most parts of Norway through sales offices and provides services through DnB NOR's and Postbanken's distribution networks and independent agents, as well as via the Internet.

Following an overall evaluation of Vital's strategy, which places primary focus on Norway, the company decided to wind up its operations in Sweden and the Baltic states in 2008. The process of finding a buyer for the portfolios in the relevant countries will continue in 2009.

New regulations

New regulations were introduced for the life insurance industry as from 1 January 2008. The objectives behind the new Insurance Act are threefold: a clearer distinction between policyholders' funds and company funds, a clearer division of risk between policyholders and the company and more transparent pricing of life insurance products.

Main issues of the new regulations are:

- Policyholders' funds are separated from the company's funds.
- Individual products established before 1 January 2008 will be subject to the same profit sharing as earlier (maximum 35 per cent of the company's total risk result, administration result and interest result). Paid-up policies will be subject to modified profit sharing (maximum 20 per cent of the company's interest result).
- For corporate and municipal group pensions, all returns on capital in excess of the guaranteed rate of return are returned to the policyholders. The price of the guaranteed rate of return and profits of risk business and operations are fixed in advance. Any risk premium is either returned in its entirety to the policyholders, or the company may retain up to 50 per cent of profits as allocations to the risk equalisation fund. New individual contracts are treated in the same way.
- The regulations entail no changes for risk products and investment choice products.
- According to the new regulations, the company may offer group pension products with investment choice.

In the longer term, the new regulations will have a positive effect on company earnings and make it easier to adapt products to meet customer needs.

Employees

Vital gives priority to retaining and developing a high level of expertise within insurance products, management and other relevant areas of competence. At end-March 2009, Vital had a staff of 859 full-time positions.

Cooperation with other group entities

- By taking advantage of the strength of the DnB NOR Group's total distribution network, Vital
 is well positioned to enjoy continued market growth.
- Vital's growth in the retail market is not least due to the business area's extensive distribution network, where other business areas in the Group play a principal role.
- In the first quarter of 2009, other business areas accounted for 24.1 per cent of the sales of Vital's products in the retail market, compared with 47.0 per cent in the corresponding period of 2008.

¹⁾ Prepared in accordance with prevailing regulations for life insurance companies. New regulations are expected upon the introduction of Solvency II.

²⁾ The table above shows the composition of and development in solvency capital. All these elements, with the exception of part of the security reserve, can be used to meet the guaranteed rate of return on policyholders' funds.

³⁾ Buffer capital represents the sum of equity in excess of the minimum statutory capital requirement, interim profits, additional allocations and the securities adjustment reserve.

²⁾ Capital adequacy regulations regulate the relationship between the company's primary capital and the investment exposure on the asset side of the balance sheet. Life insurance companies are subject to a minimum capital adequacy requirement of 8 per cent.

³⁾ Solvency margin capital is measured against the solvency margin requirement, which is linked to the company's insurance commitments on the liabilities side of the balance sheet. The solvency margin requirements for Norwegian life insurance companies are subject to regulations on the calculation of solvency capital requirements and solvency margin capital, as laid down by the Ministry of Finance on 19 May 1995.

DnB NOR Asset Management

DnB NOR Asset Management provides mutual funds and discretionary portfolio management services to Norwegian and other Nordic corporate clients, the public sector, private pension funds and retail clients.

DnB NOR Asset Management seeks to provide first-class returns on customer funds within the preferred risk profile and investment horizon. DnB NOR aspires to be the leading asset manager for clients in the Nordic region, providing sound long-term returns and a high level of service based on a thorough understanding of customer needs.

Assets under management and assets under operation at end of period.

Comments to the financial performance in the first quarter of 2009

- Commission income decreased by NOK 58 million from the first quarter of 2008 to the first quarter of 2009. This was mainly due to a reduction in assets under management.
- Operating expenses in the first quarter of 2009 were NOK 155 million, down NOK 27 million from the first quarter of 2008 due to staff cuts, synergies in coordinating operations with Vital and other measures implemented as part of the Group's cost programme.
- Changes in net interest income and other income reflect currency exchange fluctuations.

Managed on behalf of Vital Forsikring.

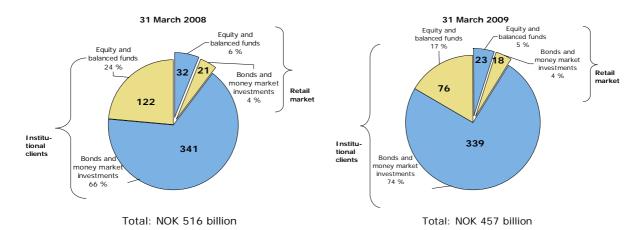

The return is calculated on the basis of internal measurement of risk-adjusted capital.

Assets under management - distribution by market segment

1) Share of total assets in the institutional and retail market respectively, invested in bonds, fixed-income funds and money market funds.

¹⁾ Interest on allocated capital is calculated according to internal DnB NOR capital allocation rules. "Net interest income - ordinary operations" does not include interest on equity

Comments to the financial performance in the first quarter of 2009

- Pre-tax operating profit before write-downs was NOK 216 million, up 25 per cent from the first quarter of 2008.
- Total income increased by 17.7 per cent to NOK 633 million, reflecting increased volumes in the period.
- Operating expenses came at NOK 417 million, up NOK 52 million. Salaries increased by NOK 14 million due to a mix of higher fixed salaries and lower performance based expenses. Other expenses, primary EDP expenses and premises expenses, increased by NOK 38 million.
- Cost/income ratio was 65.9 per cent in the first quarter of 2009 compared to 67.8 per cent in the corresponding period in 2008.
- Higher funding costs, reduced growth, and high write-downs due to the economic slow down and turmoil in the financial markets continue to influence the development also in the first quarter of 2009.
- Net individual write-downs on loans recorded in the first quarter of 2009 represented 2.15 per cent on an annual basis relative to average lending. Total write-downs, including group writedowns, represented 2.64 per cent in the same period, up from 0.21 per cent in the first quarter of 2008. The most pronounced increase in write-downs referred to Lithuania and Latvia with individual write-downs of NOK 268 million and NOK 174 million respectively.
- Average lending increased by NOK 25.7 billion or 41.1 per cent from the first quarter of 2008.
 Deposits increased by NOK 1.1 billion or 5.2 per cent from the first quarter of 2008.

¹⁾ Based on nominal values excluding lending to and deposits from credit institutions and impaired loans.

Development in lending volumes

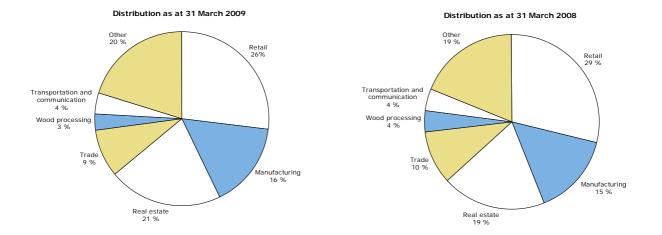

Measured in NOK lending increased by 33.3 per cent from end-March 2008 to end-March 2009 and showed a decrease of 10.2 per cent from end-December 2008. The development in 2009 was influenced by the increased value of the Norwegian kroner against euro. When measured in euro loan development showed a decline of 1.6 per cent, largely explained by an increased level of write-downs and the declining exchange rate on the Polish Zloty.

Lending volumes and write-downs

| | | Net individual | Group | Total |
|------------------------|---------------|----------------|-------------|-------------|

Exposure at default according to customer sector

Organisation and market

- DnB NORD serves more than 870 000 retail and corporate clients through 180 branches and offices in six countries: Denmark, Finland, Estonia, Latvia, Lithuania and Poland.
- DnB NORD's staff represented 3 480 full-time positions at end-March 2009.
- At year-end 2008, DnB NORD was the third largest bank in Lithuania and number four in Latvia measured by total assets. In Estonia, the bank was number five in terms of total lending.

Over the last several years, the Baltic region has experienced strong economic growth and development. However, the region is currently experiencing a deep recession, which is expected to continue during 2009. DnB NORD continues to position itself for a modest level of growth in Poland based on the continued relative stability of the Polish economy and Polish financial sector. DnB NORD continues to closely monitor the situation in all of its markets.
