Company Announcement No. 02-2014:

**FLSmidth wins cement order in Oman**

FLSmidth has received an order worth USD 38m (approximately DKK 205m) from Omani cement producer Oman Cement Company (SAOG) for the supply of milling equipment for a cement plant located in Rusayl Industrial Area, 60 km from Port Sultan Qaboos, Muscat.

The order covers supply of a 150 tonnes per hour closed circuit ball mill system including two cement silos, each with a capacity of 8,000 tonnes. The scope of supply also includes a high-efficiency central drive for the ball mill and a dynamic separator and fabric filters to reduce dust emission.

*"Infrastructure growth in Oman has created a huge demand for cement. Oman Cement Company are already upgrading their existing production lines and now want to set up a fifth cement grinding unit. FLSmidth has a strong service capability and presence in the Gulf Cooperation Council (GCC) countries and therefore has good relations with the company,"* Group Executive Vice President Bjarne Moltke Hansen comments.

The order will be booked by the Cement division and contribute beneficially to FLSmidth's earnings until mid 2015.
