Alfa Laval wins SEK 170 million energy-efficiency order in South Korea

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply Alfa Laval Packinox heat exchangers to a petrochemical plant in South Korea. The order, booked in the Energy & Process segment, has a value of approximately SEK 170 million and delivery is scheduled for 2017.

The order comprises the delivery of Alfa Laval Packinox heat exchangers which will recover energy in the production of mixed xylenes, ingredients in the manufacturing of synthetic nylons and PET bottles.

“This order confirms that customers in the demanding petrochemical and refinery sectors, value the reliable performance of our highly energy-efficient Alfa Laval Packinox heat exchangers,” says Lars Renström, President and CEO of the Alfa Laval Group.

Did you know that... Alfa Laval South Korea is in the top three market for Alfa Laval, after the US and China?

About Alfa Laval

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.
