Press release

Gothenburg, April 12, 2016

Changes to Getinge Group's financial reporting

As previously announced, Getinge introduced a new organizational structure effective January 1, 2016 that better reflects customer requirements and enables more effective governance of the Group. Consequently, a new financial governance model and reporting structure has been developed to reflect this change. As a result, Getinge has also changed its external reporting structure. Segment information for 2015 has thus been restated to facilitate comparisons.

Getinge's new functional organizational structure that was introduced on January 1, 2016 entails better opportunities for focusing on the specific needs of each customer and enables Getinge's unique customer offering through the Group's total product portfolio. In addition, the new structure entails a significantly more efficient and focused management of the Group.

A new financial reporting structure was introduced that corresponds to the new organizational structure. This new reporting structure comprises three reporting segments based on the Group's three Business Category Units: Surgical Workflows, Acute Care Therapies and Patient & Post-Acute Care. Group Items will be reported separately.

The segment information for 2015 has been restated in accordance with the new reporting structure to facilitate comparisons. Restated information regarding order intake, net sales, gross profit, EBITA and EBIT is appended to this press release.

The interim report for the first quarter 2016 is published on April 22nd at 13.00 CET and will reflect the new reporting structure.
