TeliaSonera facilitates repatriation process in Lithuania and extends support to Stockholm School of Economics in Riga

TeliaSonera today announced the award in the project tailored to encourage Lithuanian emigrants to return to their country. TeliaSonera will also prolong its participation in the entrepreneurial education at Stockholm School of Economics (SSE) in Riga, Latvia.

“As the Baltic region’s leading telecommunications company, we have a direct interest in the economic health of the region and a responsibility to contribute to sustainable development”, says Kenneth Karlberg, President of Mobility Services, TeliaSonera. “Emigration of active citizens has become a problem in Lithuania, not only to the private sector but to society as a whole, and we want to provide tangible assistance to help solving it.”

“We are also more than happy to continue the cooperation with SSE in Riga for the benefit not only of the School but also of the Latvian economy showing our commitment to the Baltic region,” emphasized Kenneth Karlberg.

Under the “Destination Home” project, TeliaSonera today granted a scholarship of 100 000 Litas to Dr Daumantas Matulis, who returned to Lithuania in 2005 after having completed his Ph.D. in biochemistry and biophysics in the US. A total of 20 applicants were evaluated by the Lithuanian Scholarship Commission and the Swedish Research Council. The two bodies recognized that Dr. Daumantas Matulis stands out as an exceptionally productive and engaged individual who will be an important driving force in the future Lithuanian scientific community.

“I want to share my experience gained in the US and contribute to the improvement of Lithuania’s science situation, especially changing the attitude of our society towards science,” said Dr Daumantas Matulis.

TeliaSonera is the leading telecommunications company in the Nordic and Baltic region, with strong positions within mobile communications in Eurasia, Turkey and Russia. At the end of 2006, TeliaSonera launched mobile services in Spain. We provide reliable, innovative and easy-to-use services for transferring and packaging voice, images, data, information, transactions and entertainment. In 2006, TeliaSonera’s net sales amounted to SEK 91 billion, and at the end of March 2007 the total number of customers exceeded 100 million in 15 countries. The TeliaSonera share is listed on the Stockholm Stock Exchange and the Helsinki Stock Exchange, and the company is included in the Dow Jones Sustainability Index. Simplicity and service are important tools for us in creating profitable growth and value for our customers and shareholders. Read more at www.teliasonera.com.

TeliaSonera

TeliaSonera will also continue to participate in the financing of higher education in the field of economics and business in Latvia by donating SEK 2 million to SSE Riga. The cooperation will continue until December 31, 2008. The donation will enable SSE Riga to continue working in the fields of entrepreneurship, telecom research and education.

The current cooperation between TeliaSonera and SSE Riga was established by a donation in 2004. In connection with the donation, a Professorship in Entrepreneurship and the TeliaSonera Institute were founded.
