Press release

Stronger level of orders recorded Two new orders for research systems

Bezons, October 30th, 2014 - 7 am - RIBER, the global leader for molecular beam epitaxy (MBE), is announcing that it has signed two orders for research machines in October.

Commercial success of the Compact 21 DZ confirmed with a new order in Romania

RIBER has recorded an order for a Compact 21 DZ system from a leading laboratory in Bucharest, Romania. In coopération with Oxford Instruments, this new system will allow to further strengthen the laboratory's development capabilities for the design of GaN-based semiconductor devices.

Following on from the three machines sold since the start of the year, this fourth order confirms the successful market introduction of the new Compact 21 DZ system.

Geographical diversification of sales with an order for a research system in New Zealand

RIBER has also sold a Compact 21-2' MBE machine to the University of Victoria in Wellington, New Zealand, which will help expand its research capabilities for new III-V structures. The Compact 21-2' is a new entry-level system developed by RIBER to enable laboratories to carry out compound semiconductor research projects while optimizing their fixed costs.

Highlighting RIBER's proactive commercial approach on the research MBE machine market, these commercial successes confirm the upturn in order levels.

ABOUT RIBER:

Riber designs and produces molecular beam epitaxy (MBE) systems as well as evaporation sources and cells for the semiconductor industry. This high-tech equipment is essential for the manufacturing of compound semiconductor materials and new materials that are used in numerous consumer applications, from new information technologies to OLED flat screens and new generation solar cells.

The Riber Group recorded €23.5 million in revenues for 2013, with 109 employees at the end of 2013. The company is ISO9001 certified. Riber is listed on NYSE-Euronext Paris, Compartment "C", and is part of the CAC Small, CAC Mid & Small, CAC Technology and CAC T. HARD. & EQ indices. Riber is one of the best-rated companies in the Gaïa-index, the leading SRI index for French mid-caps. Riber is eligible for SME share-based savings schemes.
