

PRESS RELEASE

Nordic operator selects Tilgin to support IPTV service launch

Stockholm, 13th November 2007: Tilgin, a leading provider of customer premises equipment (CPE) for triple play and IMS (IP Multimedia Subsystem) based services, is pleased to announce that it has been selected by a Nordic operator to supply CPE for the operator's new High Definition IPTV services.

Tilgin will supply an initial trial order of its cutting edge IPTV set-top box to the Nordic operator. The order represents the first commercial sale for Tilgin's Mood 400 IPTV set-top box solution, which will function as an integrated part of the operator's end-to-end IPTV solution. The operator's system integrator is one of Tilgin's IPTV partners.

The Mood 400 set-top box includes HDTV, integrated and feature rich Personal Video Recorder (PVR), MPEG-4 AVC support for reduced bandwidth advantages, as well as DVB-Terrestrial support. This state-of-the-art technology will enable the Nordic operator to offer an unparalleled IPTV viewing and entertainment experience for its service.

"This Nordic operator's decision to select Tilgin to supply its Mood 400 solution sends a very strong message to the market, and we look forward to developing this relationship further in the future." says Ola Berglund, CEO of Tilgin.
